FRENCH DEMONSTRATE AGAINST NAZIS; TONS OF BOMBS DROPPED ON JAPANESE

DEFENDERS ISLAND FORTRESS CONTINUE TO BLAST INVADERS

FIERCE FIGHTING REPORTED STILL IN PROGRESS ON ISLAND OF CEBU

By the Associated Press.

General Douglas MacArthur's headquarters disclosed today that 110 tons of bombs were dumped on Japanese soldiers, ships, planes and other military targets in the spectacular two-day assault by U. S. army bombers against enemy bases in the Philippines.

American-Filipino defenders of Corregidor are still putting up fiery resistance, a war department bulletin said today.

The communique reported that Corregidor's big guns blasted Japanese troop concentrations and truck columns on nearby Bataan Peninsula, inflicting numerous casualties, and blew up enemy ammunition dumps.

The war department said fierce fighting also continued on Cebu Island, in the Central Philippines, 250 miles south of Manila, where 12,000 tank-supported Japanese troops landed last week.

Corregidor was raided five times yesterday, but American-Filipino anti-aircraft guners kept the Japanese planes so high that their bombing was ineffective. Enemy batteries also shelled the island intermittently.

The war department said Japanese planes had raided Corregidor sixty-five times since April 9, the day Bataan Peninsula fell to overwhelming Japanese forces after three months of bloody fighting.

"Despite the constant bombing, the damage to military installations has been relatively slight," the communique said, "and the morale of the troops is unimpaired."

Commenting on the two-day attack by American bombers on enbases in the Philippines, Lieut. Col. J. H. Davies, who led one of the groups, declared:

"We smacked hell out of 'em."

Moreover, high allied officials confidently declared that the attack was only a foretaste of more and heavier blows in store for Japan's invasion armies.

"In this magnificent exploit, we see the tide of war turning against Japan," said Australia's Supply Minister John A. Beasley.

"This attack is the first drive... In time it will be followed by vast air fleets."

Airmen Lash Out Anew.

While the invasion-threatened "down under" continent celebrated the safe return of twelve of the thirteen big U. S. bombers which engaged in the foray, Australian airmen lashed out anew at the Japanese base of Koepang, on Dutch Timor Island, before dawn today.

Prime Minister John Curtin announced that high explosives and incendiaries were rained on an airdrome.

Meanwhile, a Tokyo broadcast asserted that Japanese warplanes which attacked Corregidor Island fortress, in Manilla Bay, encountered "markedly feeble" resistance from guns of the bomb-battered oltadel.

Significantly, the broadcast said the attack was carried out in "a driving squall."

In this connection, Lieut. Gen. Jonathan M. Wainwright's defenders on Corregidor expect the approaching rainy season to hamper Japanese bombing attacks, although it may screen attempted sea-borne landing operations.

On Burma Front.

On the Burma war front, British headquarters reported that fierce all-day fighting raged in the key sectors and acknowledged that out-

Led Attack

Brig. Gen. Ralph Royce (above) personally led the attacks on Japanese bases in the Philippines made by 13 U. S. bombers.

DEAN SCHEDLER WAS ALIVE AFTER FALL OF BATAAN PENINSULA

FRANK HEWLETT, UNITED PRESS CORRESPONDENT, FLOWN OUT BY RAIDERS

By CLARK LEE

U. S. ARMY HEADQUARTERS IN AUSTRALIA, April 16.—(AP)—Dean Schedler, Associated Press correspondent on Bataan Peninsula, was alive and safe somewhere in the Philippines when last seen by United States officers who have just reached Australia by air.

They said he may already have landed somewhere in Australia.

Schedler, who was barn in Stillwater, Okla., and Frank Hewlett of the United Press started out by different means.

Hewlett, whose home is in Pocatello, Idaho, was brought out with 24 army officers and others by the bomber force of Brig. Gen. Ralph Royce after a powerful attack upon Japanese bases at the beginning of this week.

The most amazed persons at the airport when Brig. Gen. Ralph Royce's bombers landed somewhere in Australia were Lieut Col. Chi Wang, Chinese laision officer on Bataan, and Maj. Gen. Rush B. Lincoln, who met the party at the air field.

The Chinese officer for four years was a West Point roommate of the General's son, Rush B. Lincoln, Jr., who is now a major in the United States army.

General Lincoln said . "I didn't ever expect to see you here"

"I didn't know I was coming," the lieutenant colonel replied.

Another newspaper man in the bomber party was Nat Floyd of Sherman, Tex., a representative of the Manila Bulletin and New York Times, who left Corregidor early in March.

Floyd had since been in the inner Philippine Islands. He hitchhiked from one island to another on the same torpedoboat which took high officials from the Manila Bay fortress.

Schedler was the Asosciated Press representative on Bataan for about a month before the Japanese won the peninsula. He is 28 years old. He went to Manila in 1935 after attending Oklahoma A. and M.

RELATIONS BETWEEN VICHY AND AMERICA ARE GROWING WORSE

CONCERN EXPRESSED IN CONGRESS OVER ACQUISITION FRENCH FLEET BY HITLER

WASHINGTON, April 16.—(AP)—French Ambassador Henry-Haye arranged today to call at the state department (at 6 p.m., EWT) and speculation about his purpose included the thought that he might be bringing a declaration of Vichy France solidarity with Hitler's "new order."

Already, United States relations with Vichy appeared strained almost to the breaking point.

As all American residents were urged to leave unoccupied France and congressmen expressed concern that Hitler would acquire the French fleet, Vichy's ambassador Gaston Henry-Haye sought an appointment at the state department here.

Acting Secretary of State Welles announced that he would receive the French diplomat today and some observers thought that Henry-Heye's mission might be to deliver official notification of a new and openly pro-Nazi collaborationist policy under the premiership of Pierre Laval.

Should such a policy be proclaimed by Vichy it would be practically impossible for the United States to continue normal diplomatic relations with that government.

For the statement of American policy contained in a note just rejected by Vichy, it was made clear by Welles that the United States has no use for collaborationists and would not consider a collaborationist regime as qualified to represent the French people.

Some senators joined in gloomy forecasts that the French fleet might soon be aligned with axis naval forces.

Hitler To Take Fleet

"Hitler will take the French fleet now whenever he decides the time is right," said Senator Lucas (D-Ill), a member of the senate naval committee.

Similar views were expressed by Senators Bone (D-Wash), Norris (Ind-Neb) and Gillette (D-Iowa), in separate interviews, with the latter urging that the United States and her allies get the jump by holding all French vessels and supplies in port and occupying the numerous French insular possessions in the Western Hemisphere.

The threat that Germany may gain control of the French fleet was regarded by naval authorities as a grave menace to Britain's lines in the Mediterranean and thus a direct threat to the security of her armies in North Africa.

Beyond this immediate result, these experts said, an out-and-out Vichy-Berlin coalition eventually would jeopardize Anglo-American domination of the North Atlantic supply routes to England and Russia, and a general realignment of allied naval strategy would have to be undertaken.

In making effective use of the French ships, however, it would be imperative that the axis have the enthusiastic support of their officers and crews, and there was considerable speculation here as to whether that could be counted on in all cases.

According to the best available unofficial estimates, the French fleet consists of:

The five battleships Provence, Dunkerque, Strasbourgh, Richelieu and Jean Bart (assuming the latter has been completed — a doubtful possibility), all in various stages of readiness to fight:

Two battleships building, the Gascogne and Clemenceau;

Two uncompleted aircraft car-

AMERICAN RAIDERS USED SECRET BASE IN BLASTING JAPS

FORTY-FOUR PASSENGERS WERE BROUGHT BACK FROM FORAY IN PHILIPPINES

By C. YATES M'DANIEL.

UNITED STATES ARMY HEADQUARTERS IN AUSTRALIA, April 16.—(AP)—Brig. Gen. Ralph Royce, volunteer leader of the bombing squadron which delivered the United States' first long distance smash in the Philippines, disclosed today that the raiders used a base hidden in the islands, protected by fighter planes, and provisioned it for future use.

Twelve planes of the thirteen which for two days wrought destruction and dismay among the enemy at the start of the week ferried forty-four passengers on their return trip to Australia—ten crewmen from a fortress bomber lost on the foray and thirty-four army men and civilians from Bataan, Corregidor and other island points.

Most of the evacuees were airmen, indicating that while, the Americans still have fighting planes in the islands, as Royce said, they have a surfeit of men to fly them.

Royce said that the morale of the men left behind was excellent, especially now that they have plenty of food. The American fighter planes cooperated with the Australia-based bombers, shooting down two Japanese planes that tried to attack the bomber squadron.

The hidden field served the ten medium and three fortress bombers

See RAIDERS, Page 6.

SENATOR DOWNEY INTRODUCES BILL FOR SEIZURE AUTOS

WASHINGTON, April 16.—(AP)—Senator Downey (D-Calif) today introduced a bill that would give the President power to seize any and all privately-owned automobiles.

At the same time, the California senator recommended that immediate steps be taken to "remove some 10,000,000 cars from the roads and place them in a vast pool to meet a serious transportation crisis we can expect within a year or so."

Downey said he was convinced that there "simply will not be any tires for the 30,000,000 civilian automobiles for four or five years even if we get all the synthetic rubber hoped for by Jesse Jones and others."

Downey said this lack of tires and the halt in car manufacture would cause a sharp curtailment in available transportation for workers, the mails and other necessary services which should be anticipated now by government action to conserve present supplies of cars.

The senator said he would ask that his broad-termed bill be referred to the senate military affairs committee and would ask that the full committee begin hearings next Wednesday.

The bill would give the President autuhuority to build up a vast stock of automobiles, parts, tires and supplies and authorize use of a $5,000,000,000 fund for this purupose.

Cars and parts might be acquired by donation, purchase or requisition. If the car was taken and owners were not satisfied with prices offered, they could accept a 50 per cent payment and appeal to the United States court of claims.

CORREGIDOR'S GUNS BLAST JAP TROOPS AND TRUCK COLUMNS

WASHINGTON, April 16.—(AP)—The war department reported today that Corregidor's guns scored hits on troop concentrations and truck columns on the Philippines' Bataan Peninsula, and that enemy ammunition dumps were hit and blown up.

Japanese casualties were believed to have been numerous, a communique said.

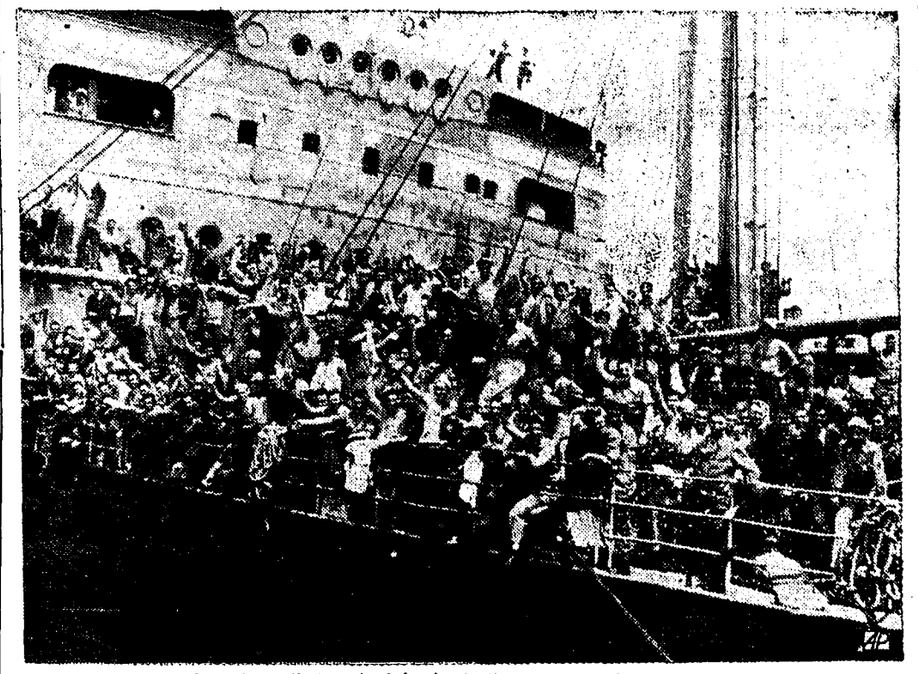

Fierce fighting contined on the island of Cebu, more than 300 miles to the south, where the Japanese last week landed an invasion force estimated at 12,000, which was supported by dive bombers and tanks.

Corregidor was raided five times yesterday, the communique said, but the defenders' anti-aircraft artillery forced the Japanese planes as on most other occasions to fly so high bombing was ineffective.

Lieut. Gen. Jonathan M. Wainwright, the Philippine commander, reported that in the week since April 9 the fortress island had been raided sixty-five times, but the war department said that "despite the

NEW VICHY CABINET REPORTED FORMED BY LAVAL ON THURSDAY

BRITISH AIR ACTIVITIES INCREASE AGAINST GERMAN-OCCUPIED FRANCE

By ROGER D. GREENE
Associated Press War Editor

Reports of marching demonstrations in Paris against collaboration with Germany accompanied announcement late today that the pro-Nazi Pierre Laval, France's No. 1 advocate of closer ties with the reich, had formed a new Vichy cabinet and himself assumed the post of "chief of government."

Dispatches from Bern, Switzerland, said there had been numerous reports of mass arrests of persons demonstrating against collaboration and that 25 persons had been executed in Paris in the past few days.

Disorders were also reported in German-occupied Belgium.

Vichy dispatches said nazi authorities in Southern Belgium had ordered an 8 p. m. curfew and 7:30 p. m. closing of public buildings in reprisal for a wave of terrorist and anti-German activities

Nine persons have been sentenced to death in 17 convictions in recent military trials in Belgium.

RAF Active.

Hundreds of British fighter planes roared across the English Channel late today to attack the German-occupied French "invasion coast" in one of the RAF's greatest daylight assaults of the war, while France herself faced a mounting crisis in relations with the United States.

Simultaneously a British broadcast reported that 40 German soldiers were killed in a train derailment in occupied France, in what may have been sabotage attack reflecting popular bitterness over the return to pro-nazi Pierre Laval into the French government.

Watchers on the Kentish coast of England said the thunder of aerial battle over the channel was even louder than a year and a half ago when as many as 500 nazi warplanes attacked the British Isles in a single day.

The Washington-Vichy crisis was believed nearing a showdown amid general expectations that France would proclaim her solidarity with Germany and that Adolf Hitler might soon gain control of the French fleet.

Americans Urged to Leave.

U. S. Consular officials urged all Americans to leave unoccupied France as soon as possible

Emphasizing the gravity of the situation, President Roosevelt moved up his cabinet meeting from its accustomed Friday date, and it was expected he would hear a report on developments which have strained relations between France and the United States almost to the breaking point.

Later, however, it was announced that the cabinet meeting would not be held today.

In Vichy, the new French "chief of government," Pierre Laval, said a new Vichy cabinet had been chosen except for two names. A silent crowd of 2,000 Frenchmen watched as Laval's big black limousine drew up before the government hotel.

Vichy's ambassador Gaston Henry-Haye had an appointment to meet Acting Secretary of State Sumner Welles today, and Washington observers expressed belief that he would deliver official notification of an openly pro-nazi collaborationist policy by Pierre Laval's new regime.

Nothing But Scorn.

Welles has already made it emphatically clear that the United

WARRING NATIONS WORLD HAVE OVER 20,000,000 IN ARMIES

ACCORDING TO MOST AUTHENTIC FIGURES ARMED FORCES WELL DIVIDED

By WILLIAM FRYE

WASHINGTON, April 16.—(AP)—Nations at war today have more than 20,000,000 men under arms.

The total may even be as high as 30,000,000, for such figures have long since become jealousy guarded military secrets, and in the case of some nations the last available military statistics are several months old.

When the war began for the United States on December 7, 1941, this country had an army of approximately 1,600,000 men, with 33 divisions.

Of these, 18 were National Guard "square" divisions of approximately 20,000 men each, nine were regular army "triangular" divisions of approximately 15,000 each; two were cavalry divisions and four were armored divisions, the latter containing upwards of 12,000 men. The square divisions have been reduced in size and reorganized along the lines of the regular army divisions.

Since then, the U. S. program has been stepped up sharply with the idea of an eventual goal of 3,600,000 men, including 1,000,000 in the air forces. Three additional armored divisions already have been organized, and three more are to be formed in the next few months. Moreover, the army plans to activate 32 new infantry divisions during 1942, and some of these already have been organized.

Reports on the armed might of

See ARMED MIGHTS, Page 6

FORCED SAVINGS FOR REVENUE AND TO END INFLATION NOW OUT

ADMINISTRATION BELIEVES VOLUNTARY BOND PURCHASES BE SUFFICIENT

By DONALD A. YOUNG.

WASHINGTON, April 16.—(AP)—"Forced" saving as a means of raising new revenue and helping combat inflation was reported today to have been discarded by the administration in the belief that voluntary purchases of war bonds would be adequate for the government's great borrowing program.

Well-informed sources said that President Roosevelt had sided with Secretary of the Treasury Morgenthau rather than with Leon Henderson, price administrator, and other officials who had advocated forced saving and an increase in the pending $7,000,000,000 tax program to discourage rising living costs.

House ways and means committee chairman, Doughton (D-NC), discussed the whole tax situation with the resident at the White House yesterday and said later that he had "no reason to expect" that the administration would boost its tax recommendations.

It was reported that Doughton told the President that congress would encounter difficulty in raising even the $7,610,000,000 unless a general sales tax was written into the bill.

Mr. Roosevelt was understood to have reiterated his opposition to that kind of levy, except as a last resort.

Fourteen Rubber Plants Proposed Be Built Texas

DALLAS, April 16.—(AP)—Texas will produce 700,000 tons of synthetic rubber in 14 plants to be constructed, Senator O'Daniel (D-Tex) told the Dallas Automotive Trades Association yesterday.

He said that contracts had been let for 14 synthetic rubber plants with a capacity of 50,000 tons per factory per year to be built in the state.

Official word of the contracts will be released by the War Department, O'Daniel said.

The method discovered by Dr. E. P. Schoch of the University of Texas presumably would be utilized.

"This would bring rubber factories to Texas and mean that automobile tires can be made here, utilizing the cotton and carbon black produced in Texas," the senator explained.

METHODIST WOMEN HEAR THEIR LEADER DISCUSS SERVICE

MRS. J. D. BRAGG PRINCIPAL SPEAKER AT WSCS SESSIONS THURSDAY MORNING

By JERRY WATSON,
Daily Sun Staff.

"This great united group of Methodist women faces together the greatest opportunity for service it has ever known," Mrs. J. D. Bragg of St. Louis, president of the women's division of the Board of Missions and Church Extension of the Methodist Church, told more than 225 delegates and as many visitors in an address to the WSCS Central Texas conference Thursday morning.

Speaking on the subject, "To Serve the Present Age," Mrs. Bragg urged the women to increase their personal interest in missionaries serving in foreign fields, to increase their service and responsibilities to young men in the armed forces and to increase their spiritual development individually and as a group. These are the ways in which Methodist women and all Christian women can best serve the present age, the speaker emphasized.

"We face an inconsistency in our thinking and in our practices which must be changed," Mrs. Bragg told her audience. "Who is responsible for the fact that men in our armed forces cannot get soft drinks yet can obtain beer and liquor at any time? Who is responsible for the fact that beer trucks can get tires while milk trucks cannot?" These questions were asked by the speaker who urged the women to do their part in remedying such situations.

Must Serve Young People.

To serve the present age women must see that wholesome recreation and spiritual development is made available to all young people, the men in our armies and the young women who are working in war industries, going into new cities and situations, Mrs. Bragg continued. Our youth in schools over the country must be trained to take their place in the world after the war, and mothers, teachers and church workers can serve the present age by leading these young people in the right paths, the speaker said.

"The church must not suffer during the perilous times and as the largest Christian woman's organization in the world today, the

See WOMEN, Page 5.

THUNDEROUS ROAR BRITISH FIGHTERS FILL CHANNEL SKY

RAF IN GREATEST DAYLIGHT SWEEP WAR AGAINST GERMAN HOLDINGS IN FRANCE

LONDON, April 16.—(AP)—The thunderous roar of hundreds of British fighting planes filled the English channel sky today in what coast watchers believed to be the RAF's greatest daylight sweep of the war against German holdings in France.

To residents of the Kentist coast the roar of battle was even louder than that of a year and a half ago when the German air force sent formations numbering as many as 500 planes against Britain in a single day.

Winding up the third successive day of dawn-to-dark raiding in northern France Spitfire formations swept across the channel before dusk as many squadrons returned from the direction of Boulogne and Calais, still flying in perfect formations.

British and German fliers fought high over France as the RAF continued its around-the-clock schedule.

Two Nazi planes were reported authoritatively as having been shot down in the dogfights this morning.

The air ministry news service said three others were damaged by RAF fighters during the sweep in which bomb-bearing Hurricanes scored hits on railroad sidings and the dock area on Dunkerque.

None of the British Hurricane bombers or their Spitfire escort was hit during the sweep, the service said.

The service also reported that a lone Spitfire, on shipping reconnaissance, spotted a 200-ton German torpedo boat in the chanel and dived on it from 5,000 feet with cannon and machine-guns firing.

It said the boat was damaged in the dive attack, which the

DARING LONG-RANGE BOMBINGS OF JAP PHILIPPINE BASES HELD GREAT PSYCHOLOGICAL VICTORY

By DeWITT MACKENZIE,
Wide World War Analyst.

MacArthur's great aerial coup against the four Philippine bases was in a manner of speaking a token raid, for one of its chief purposes surely was to place the general's seal on his pledge to take the offensive against the enemy.

That purpose has been so brilliantly achieved that the resultant lift to allied morale rather pushes the material damage into the background. The thing which matters is that the commander-in-chief has spread his wings of victory and daringly spanned a 2,000-mile stretch of ocean to strike a mighty blow, thereby creating a record for such a major, long-range operation in the battle of the Pacific.

Uncle Sam's chin is a bit higher today, and his step a little more jaunty. Let the reader consult his own outlook. Don't you feel the uplift? Sure you do.

Exhibition of Strategy.

MacArthur has demonstrated by a dangerous, but beautifully executed operation that America definitely is swinging into action after many disconcerting set-backs. He has given us an exhibition of the strategy upon which we are likely to depend, or so I believe, to crush the Japanese—war from the air with a vast navy of matchless flying fortresses and fighters.

The C-IN-C has proved again that the Yankee airman is absolute tops as a fighter, and that American warplanes are worthy of these grand men. He has shown how, even in these early stages of the conflict while we still are in a state of preparation, the widely distributed Japanese bases and attenuated communications in the Southwest Pacific can be blasted.

Our leader has given Nippon a preview of the day when the sun over pagan Tokyo will be obscured by an armada of American warplanes, for that is the way we ultimately shall exact retribution. When the Japs stuck a knife in Uncle Sam's back at Pearl Harbor they asked for trouble, and they are going to get their bellies full of it.

Disconcerting to Japs.

On the whole, this demonstration of air-power and military efficiency must be about the most disconcerting thing which has happened to the Japanese since they violated

See THE WAR TODAY, Page 5.

Number of Texans Have Lost Lives In Far East Area

WASHINGTON, April 16.—(AP)—The War Department today announced the names of eight Texas soldiers who were killed in action or who died of wounds in the Far East.

They were Don E. Barnes, Lubbock; Jack E. Bngham, Christoval; 2nd Lieut. Willis Weldon Burney, Artesia Wells; Major Joseph A. Burch, Waco; James L. Cannon, San Antonio; 2nd Lieut. Fergus O'Connor Luscombe, Dalhart; 1st Lieut. Richard V. W. Negley, Jr., San Antonio; and 2nd Lieut. Samuel Seay Pattillo, Denison.

The War Department said that most of these died in the Netherlands East Indies, though a few on the list were killed in action in or near northern Australia. The list does not include soldiers killed in the Philippines.

Names of additional solders who met death in this area will be made public whenever verified reports are received and checked, the War Department said.

ARMY LIFE STILL ARMY LIFE EVEN IN AUSTRALIA, AMERICAN SOLDIERS ARE BEGINNING LEARN

By VERN HAUGHLAND

U. S. ARMY HEADQUARTERS IN AUSTRALIA, April 16.—(AP)—United States soldiers encamped in Australia are discovering that army life is army life wherever they go—a mixture of hard work, fun and boredom

"About the only difference is the food," said Private Louis Sandor of Cleveland. "We do not have as much variety as back home and the helpings aren't as big. At that, it's better than we figured on for war time. We are not kicking."

The army brought large quantities of canned foods Australia is providing fresh fruits, vegetables and dairy products.

Reveille is about 6 a. m. The work day ends at 5 p. m. After dinner there usually is entertainment in the camp meeting hall or a large tent Most tennis court and golf courses are open to soldiers free.

The men get a couple of nights leave a week, in rotation. Those near cities may go to restaurants, movies, plays, skating rinks and dance halls. Saloons are closed after 6 o'clock. City parks, race tracks and fair grounds are among the camp sites.

At one seaport camp the soldiers do stevedore work to help relieve the Australian labor shortage. At another the men are engaged in airport tasks. At others they spend long hours on the target ranges.

Grounds are kept neat and clean. Many outfits have planted large vegetable gardens.

The soldiers are quartered in tents with board floors, from three to six men in a tent. Most say they are comfortable. Pictures of sweethearts are ever-present Portable radios, virtually unobtainable in Australia now, are in many tents.

In north Australia the soldiers wear tropical helmets and shorts. In the south they dress warmly, and macklnaws are required.

Australian and American enlisted men mingle readily. As private Thomas Dove of Clayton, N. C, said:

"We are a little bit south of North Carolina here and find a real southern hospitality from civilians and soldiers alike They are swell fellows and speak our language and mix right in."

IS ARISTOCRACY PASSING WITH PROGRESS OF WORLD WAR?*

Conflict Between Democracy and Special Privilege Began in Christ's Day—His Biting Arraignment of the Pharisees—What Is Real Religion?

By WILLIAM T. ELLIS

Like an echo from the far-off conflict of Jesus with the aristocrats of His time sound the news dispatches from every quarter of the globe, complaining of the failures and inadequacies of the ruling class. All governments have shifted men in high command; and one does not have to be a very discerning reader of the signs of tme time to perceive that there is a rising tidal wave of revolt against the group that has everywhere represented privilege and imperialism. It is no longer an indiscretion to suggest that the new world order for which we fight will have no room for the caste which has made such a mess of things.

There are spiritual tides on the move amongst mankind. The most apparent of these is the deep surging of democracy. Everywhere, except openly in the Axis countries, there is an upswing toward a new recognition of the rights and ability of the common man. High heads are falling from places of power. Discontent with professional leaders, who have long looked upon rule as their right, is growing rapidly and openly.

Our present danger is that it may go too fast or too far, before the common people have disciplined themselves to the fuller exercise of authority. But, obviously, we have come to a time when civilization may make a millennium's progress in a generation. Mankind has never before had such an opportunity as at present exists in our newly-unified earth. But it will need all the resources of religion and intelligence to bring this to pass.

A Gentle Teacher's Sharp Words.

Probably the childhood prayer to "Gentle Jesus" is responsible for the general misconception of the character of Christ. We have thought of Him only as the meek and lowly "Man of Sorrows." Whereas, in truth He was the most heroic figure that ever has appeared on the pages of history. Alone, He withstood the vested interests of His time, and withered the proud and mighty with His biting words of scorn and condemnation. He hurled His "Woes" at the most powerful figures of His day; the very men whose favor meant success and whose enmity meant death.

Mealy-mouthed men do not derive from Jesus. Pleasant platitudes and ear-tickling phrases are not learned in His school. He spoke ever for justice and righteousness and for heart religion. Not only did He blister the Pharisees and Scribes with His condemnations, but He dared to call King Herod "that fox!" Any intelligent study of the teachings of Christ makes for robust thought and fearless utterance. No teacher of Christian truth dare go about these days proclaiming "Peace! Peace! when there is no peace."

He Caught a Real Lion.

Like the society hostesses who go "lion hunting" for distinguished guests, no matter how radical they be, the Pharisee in our Lesson story sought to enhance his prestige by inviting to dinner this sensational man of the hour, Jesus of Nazareth. He soon found that he had caught a real lion.

There was no genuine hospitality in the invitation. The host was condescending and snobbish even to the point of criticising his Guest's manners, in the matter of His failure to observe the social punctilio of ritual hand-washing. It was on a par with the modern host who sneers at an unsophisticated guest's failure to use the right spoon or fork. True hospitality, of course, accepts a guest for what he is, and seeks his comfort first of all.

This "superior" Pharisee quickly found that his "lion" could both roar and bite. The candid Christ, who always rose superior to the trivia of life's superficialities, openly met the challenge of His host by likening the latter's attitude toward Himself to the cleansing the outside of a cup while the inside was unclean. Jesus left nothing to the imagination in this case, directly declaring of the Pharisees, "Your inward part is full of extortion and wickedness." Then He went on with His terrific, "Woe unto you Pharisees."

All the external religiosity of the Pharisees meant less than nothing to the Teacher who ever taught truth in the inward parts. Ritual can never be a substitute for righteousness; formalism cannot take the place of faith. The danger ever present with the religious man is that he may gradually come to substitute rites and rote for a heart right with God. It is an ominous day for anybody when he begins to let formal religious observance take the place of "justice and the love of God," to quote the Master's Words to the Pharisee.

A Lawyer Braves Lightning.

One of the guests at this sensational dinner was a Scribe, or ecclesiastical lawyer, an interpreter of the Mosaic Law. Unable to believe his ears, he protested, "Teacher, in saying this Thou reproachest us also." Surely, this upsetting Carpenter from the north would not dare to rebuke the most venerated group in the land; perish such a thought- That would be a blow at the very foundations of the social order. It reminds me of a phrase which I heard often in Russia, on the lips of aristocrats during the revolution—"Impossible! These recolutionists are only—blank—swine."

That lawyer stuck his neck out for a lightning bolt. For the gentle Jesus blasted him, and his class, with a succession of "Woe unto you lawyers!" They were a privileged group who used their place for self-advantage and for the oppression of the people. They concealed truth; they exempted themselves from the common burdens and obligations. They were strong for precedent, but weak in present justice—a tendency in modern law which the higher courts are seeking to rectify.

Thus Jesus made for Himself a choice lot of enemies who would join the ravening pack of privilege that hounded Him to the cross. To the casual observer it would seem that Jesus was defeated. But that cross, with all that it embodies of service and sacrifice and salvation and Divine and human love, has swayed the ages, and is today anew the symbol of a better life of brotherhood and democracy. Ruling classes may lose their privileges, but not their opportunity to serve and to share.

SEVEN SENTENCE SERMONS

"Good luck" is just a lazy man's estimate of a fighter's success.
—Herbert Kaufman.

Some profit by the experience of others, and some insist upon buying their own.
—Anon.

Truth, crushed to earth, shall rise again:
The eternal years of God are hers;
But Error, wounded, writes with pain,
And dies among his worshippers.
—William Cullen Bryant.

When you see a good man, think of emulating him; when you see a bad man, examine your own heart.
—Confucius.

No man having put his hand to the plow, and looking back, is fit for the Kingdom of God.
—Luke 9:62.

All God's angels come to us distinguished:
Sorrow and sickness, poverty and death,
One after another lift their frowning masks
And we behold the seraph's face beneath
All radiant with the glory and the calm
Of having looked upon the front of God.
—Lowell.

The man who tries to dodge his duties usually finds the detour rougher than the road.
—Ten Point.

On Vacation

Mrs. R. L. Tatum, secretary in the office of E. D McCormick, county judge, is vacactioning this week. Miss Connie Walker, deputy county clerk, is substituting for Mrs. Tatum.

105 West Collin Street

EVALUATION REPORT LOCAL HIGH SCHOOL FILED BY COMMITTEE

Evaluation of the Corsicana senior high school according to new standards compiled by the Southern Association of Secondary Schools and Colleges last week produced a number of interesting results as disclosed in the official report of the findings of the evaluating committee.

The report will be submitted at a later date to the board of education as well as the supervising authorities representing the Southern Association of Secondary Schools.

The committee evaluating the local system was composed of educators from high schools throughout this section of the state. Recommendations were made according to the "Evaluative Criteria" which covers every phase of the high school program and is based on a survey of over 200 high schools in the United States.

Best Features Recorded.

Best features of each of the numerous schools were recorded and standards for other schools established accordingly. All schools applying for membership in the Southern Association of Secondary Schools must measure up to these new standards while present members must be evaluated within the next five years. Corsicana high school is among the schools constituting the latter group and chose its evaluation this year.

In the general introduction to the detailed report, the committee pointed out a high degree of consistency between the evaluations of the faculty and the visiting committee. Guidance, health, and physical education in addition to the use of community resources were among the lowest items on the report.

Under curriculum and course of study employed at the high school, it was suggested that the faculty study the possibility of need for arts and crafts, vocational courses and wiser use of some of the present non-academic courses.

Commenting on the pupil activity program, it was disclosed that the organization is average and generally satisfactory although several suggestions were made for improvement.

Several improvement features were recommended for the library although the librarian was cited for a very high rating. The committee suggested the library be used for library purposes only and not as study hall.

Guidance Program.

Elaborating on the guidance program, the committee was not particularly impressed. However, it was conceded that the staff recognized its weakness in this area, constituting the first step in solving the problem. It was pointed out that although the school lacks a guidance staff, there is ample evidence that pupils are receiving a great deal of instruction in this field—even if it is being given in an indirect manner. Several suggestions were then made as to an improved program.

In a general summary of the above evaluations, the committee suggested more emphasis be placed on group discussions and individual student needs. Further, the committee disclosed that the staff suggested that it needed more systematic means of appraisal, more concern for ultimate outcomes, wider use of means of appraisal, and more opportunity for developing attitudes and appreciations. In connection with this the committee suggested that these problems be made a matter of vital concern and that current literature on appraisal be acquired and thoroughly studied.

Faculty Commended.

The faculty was commended for the accurate analysis it had made of its situation. It was also reported that good poise, good dress, friendly attitude, and good manners were recognized among the students. In addition the staff was classified as being adequate, well-trained, and experienced. The tenure was listed as unusually good, the classroom work well planned, and excellent relationships existing between teachers and pupils.

The report on the school plant was given as follows:

"The visiting committee especially commends the Corsicana school system on the buildings in general. We notice that all are fairly new; none being over 20 years of age. We further notice very definite elements of beauty both on the inside and on the outside.

"The architect seems to have been very competent, and the building is satisfactorily arranged. We especially wish to commend the school on the well kept building. We are well above average. We further notice that a high standard of sanitation is maintained.

Offer Suggestions.

"However, we would offer the following suggestions:

"First, we realize that the amount of bonds that have already been issued are perhaps too large for a system of this size. We cannot, however, fail to mention the fact that a gymnasium is definitely needed for recreational purposes and physical education classes, the building as it now exists is not adequate for carrying to completion the philosophy of the Corsicana schools. We would further add to the plant music rooms, band rooms, vocational and industrial rooms. In regard to the site, we notice a definite lack of playground space. The ground should be added to if at all possible. We also suggest that some study and action be taken in regard to the street traffic. We would suggest a widening of several of the streets and perhaps the use of one-way traffic on some of them.

"In conclusion, this committee would offer the following and give this definition first before we make the suggestion.

"By school we mean the administration, faculty, and the school board. The suggestion is this: We doubt that the school is fully alive to the needs and facilities needed by some departments. While some portions of the building are excellent, there is a definite lack of the inclusion of some new additions. This would make for some strong departments while others would be made weak."

Administration of the building was approved in nearly all divisions and the staff was listed as being well-trained and capable.

Committee members signing the report included the following:

Curriculum, instruction and outcomes—L. Notley, P. D. Brown, J. A. Sands, J. C. Mathews, and Frank Williams.

Pupil Activity and Guidance—Bill Maxwell, C. G. Masterson, Ray L. Waller, Harvey Ballew, L. L. Bennett.

Library service and school plant—Mina Bond, C. C. Isbell, W. V. Harrison, W. T. Lofland, Virginia Harden, and J. C. Watson.

School staff and school administration—G. H. Wilemon, T. C. Wilemon, Melvin Taylor, J. C. King, L. L. Wilkes, and H. O. Whitehurst.

Leaves For San Diego To Be With Husband

Mrs. Gideon Taylor left Saturday for San Diego, Calif., to be with her husband who is in the San Diego Base Hspital. Mr. Taylor, son of County Commissioner and Mrs. Jim Taylor, recently reenlisted in the Marines. His wife had been here for the past several weeks. Mr. Taylor's illness is not serious.

Our Level Best In Wartime Service

There is nothing to be gained by wishful thinking about the farm equipment situation "as it ought to be." It seems to us to be the clear duty of us all to keep our chins up and do the best jobs we can with what we have. ALL of us acknowledge that THE NEEDS OF THE FIGHTING FORCES COME FIRST.

As a manufacturer, Harvester has been building, and will continue to build, all the farm equipment possible under wartime conditions.

As a distributor, Harvester is using 110 years of experience and knowledge of farm conditions and farm practices to do the fairest job we know how to do. In distributing our machines, we take into consideration in each of our sales areas: (1) the shipments we made to that area in 1940 and in 1941; (2) the local effect of the Department of Agriculture 1942 food-production program; (3) the inventory of machines in the hands of dealers; and (4) the local crop conditions. We believe that these are the factors vital to the 1942 distribution of our products.

These things we know the American farmer will understand. We have a deep and abiding faith that nothing—no shortage, no handicap—will keep him from successfully handling his essential job and carrying the nation to eventual Victory.

We have a good stock of repairs. One Model B, one Model H Farmall. These are our last on rubber. One 1½-ton truck released for sale to anyone. Several used tractors and plows.

BRING IN YOUR SCRAP. YOUR COUNTRY NEEDS IT.

CONSIDERABLE FLOOD DAMAGE EXPECTED TO ROADS AND BRIDGES

Considerable damage to roads, bridges and bridge abutments in Navarro county is expected to be revealed when the four county commissioners have completed a survey of recent flood conditions.

Commissioners C. O. Slaughter of Currie and Drew Gillen of Blooming Grove Thursday said there had been considerable damage in their precincts, while Commissioner C. M. Fitzgerald of Rice, whose district is bounded on the west by Chambers creek and on the east by the Trinity river will have extensive damage when the floodwaters subside. Commissioner Jim Taylor of Corsicana has not completed a survey, but has roads in both Richland and Chambers creek bottoms.

The waters of Richland and Chambers are expected to be back within banks by Friday or Saturday, although the river is still at floodstage and will not be off the lowlands until at least next week.

Dorothy Lee Harrison Of Frost Wins Honors As Individual Debater

Dorothy Lee Harrison, Frost, and Ila Bess Smith, Hillsboro, students of Hillsboro Junior College won the Junior College District debate contest and represented the Hillsboro College in the Junior College State Debate meet recently held in Temple.

At the State meet Dorothy Lee Harrison was ranked first by all three judges as individual debater. She was for three years a member of the Navarro County U.I.L. Girl's champion debate team.

Annual Singing Convention Navarro Saturday, Sunday

NAVARRO, April 15.—(Spl.)—The annual singing convention will be held at Navarro Saturday night and Sunday, April 18 and 19. Bring your lunch Sunday and spread picnic fashion. The singing will be held in the high school auditorum, where 350 or more can be seated. A large crowd from in and out of the county is expected.

THERE ARE MANY CORSICANA ORGANIZATIONS BUSILY ENGAGED IN WELFARE WORK FOR CHILDREN

By ETHEL WORTHAM

Now that the nation is mobilizing its resources for the welfare of children as an important part of national defense, and in view of the fact that Coke Stevenson, governor of Texas, has issued a proclamation setting aside the week of April 19th-25th as TEXAS CHILDREN'S WEEK, it seems that a resume of the various organization's in Corsicana and Navarro County that are working for the welfare of children would be apropos at this time.

Among public and private resources for safeguarding the welfare of children in Corsicana and Navarro County are the following:

The Church Schools.

Every week in the churches of the city and county may be regarded as Children's Week, since plans from one Sunday to the next are for spiritual welfare of youth.

The Public Schools.

The Public Schools of Navarro county are contributing their share toward the development of morale, by arousing youthful ambitions to strengthen and perfect our democracy in the future, and by celebrating its great achievements in the past.

The Home.

Homes have determined that no child shall lack the opportunity for home life, health protection, education, and spiritual development, and that every child shall have the right start in life.

The 4-H Clubs.

The 4-H Clubs of Navarro County are necessary and important factors in the food problem of our country, and at their rally in Corsicana on Saturday of last week, it was brought out that more than 800 boys and girls of Navarro county have been enrolled as members for work on current projects.

Parent-Teacher Groups.

The Parent-Teacher Associations of the city and county represent hundreds of mothers and teachers, whose sole aim is to safeguard and strengthen the youth of today preparatory to a useful citizenship for tomorrow.

Corsicana YMCA

The Corsicana YMCA has just staged a successful financial campaign in Corsicana, and, with its numerous facilities for mental, spiritual and physical development will continue as the center of activity for the youth of the community.

Camp Fire and Boy Scouts.

Two local organizations that are playing an important part in the welfare of youth, are the Camp Fire Girls and the Boy Scouts, each of which has an approximate membership of two hundred girls and boys, respectively.

American Legion and Auxiliary.

Child welfare work has long been an object of both the American Legion and Auxiliary, and their activities along this line have been outstanding. In a recent message from Dr. Martha Wood, president of the Auxiliary, she is urging the co-operation of every unit in the state in the observance of Texas Children's Week, as proclaimed by the Governor.

Other Interested Groups.

The men's luncheon clubs of Corsicana have aided the health nurse of the Corsicana Public Schools in providing glasses for the under-privileged children; they have raised money for the Free Food Fund, and they have solicited donations for the milk fund for mal-nourished boys and girls.

Mrs. Brown's Work Outstanding.

The individual work of Mrs. H. G. Brown for the welfare of crippled children, with the assistance of the local Crippled Children's Society and the Navarro County Paralysis Group, has been outstanding in the state for the past eight years

United Charities and Salvation Army.

The United Charities and Salvation Army have rendered important services to the children of underprivileged families, and have contributed their share to the physical and spiritual well-being of children of this community.

Day Nursery to Open.

For the mother who must go out to work, the care of her children is a vital and often distressing problem, but members of the Civic Interest Committee of Kinsloe House, with Mrs. Claude White as chairman, have been instrumental in providing for this need in Corsicana. With the financial assistance of the city, the WPA, the Eleventh Avenue Methodist church and Mrs. H. R. Stroube's Circle of young women of the First Methodist Church, the long-discussed and much-needed Day Nursery is now scheduled to open its doors on May 1st.

Prelude to Children's Week.

Among musical organizations with youthful membership that may be said to have furnished a prelude to Children's Week, are the Corsicana High School Band, fifty-nine members of which took part in Regimental Contests at Marlin last Friday; the Nevin Federation of Junior Clubs, which presented more than fifty boys and girls in an Ensemble program at Kinsloe House Saturday evening; the elementary school choirs, the Junior and Senior High Glee Clubs, with more than one hundred and fifty children participating, who presented the Nevin Club's second Twilight Musicale of the year on Sunday afternoon at the First Baptist Church; and the Music Festivals, which were staged on Tuesday and Wednesday of this week, with more than seventy talented boys and girls participating.

Chairman of County Observance.

Mrs. W. H. Norwood, who was recently appointed Chairman of Children's Week observance for Navarro County by Dr. Homer P. Rainey, president of the University of Texas, and state chairman of the observance, is urging that women's clubs, church groups, Parent-Teacher associations and men's luncheon clubs dedicate the week of April 19th-25th to the welfare of children as an important part of National Defense.

Chairmen In Various Towns Appointed.

Mrs. Norwood has secured the following Navarro County women to act as chairmen for the observance in their own communities:

Dawson, Mrs. Floyd Smith; Kerens, Mrs. Homer Carroll, Jr; Blooming Grove, Mrs. L. R. Low; Richland, Mrs. Preston Inman; Mildren, Mrs. John Grantham; Navarro, Mrs. R. M. Jennings; Frost, Mrs. W. V. Harrison; Barry, Mrs. Richard E. Burleson; Powell, Mrs. H. R. Smerson; Emhouse, Mrs. Walter Hamilton; Angus, Mrs. John Ware; Corbet, Mrs. C. E. Williams; Purdon, Mrs. W. H. McCraw; Pickett, Mrs. Myrtle Livingston; Corsicana, Mrs. Lynne Wortham.

Demonstration On Tree Budding And Grafting at Roane

The Roane Boys 4-H Club met Friday at the school with all members present. Ben D. Cook, assistant county agent, gave a demonstration on "Budding and Grafting Trees." Projects of members were discussed and plans completed for a picnic at the city park Friday afternoon.

FOR STATE SENATOR

CAPT. JAMES E. TAYLOR.

In another column in today's paper appears the official announcement of Captain James E. Taylor of Navarro County for the office of State Senator for the Sixth Senatorial District which includes Kaufman, Henderson, Anderson, Freestone, and Navarro county.

Representative Taylor, who was publisher of the Kerens Tribune before entering military service in November, 1940, was elected a member of the House of Representatives in 1938 over five opponents and re-elected in 1940.

During his two terms he has served as member of the constitutional amendments, public printing, state affairs, game and fisheries, vice-chairman of revenue and taxation and chairman of military affairs committee. A large percent of all major legislation coming before the House was considered by one of these committees.

As the only member of the House in military service during the past session Captain Taylor, who traveled between Austin and Camp Bowie, sponsored all national defense legislation before the legislature. Among those measures were:

1. The Texas Defense Guard bill which now has over fourteen thousand officers and men and has become the model for defense guard organizations throughout the United States.
2. An appropriation bill to equip the Texas Defense Guard with rifles, ammunition and other equipment.
3. The National Guard Armory bill which made possible a $2,700,000 Federal Loan and grant for Texas armories, three to be built in this senatorial district.
4. A bill to exempt soldiers training in Texas army camps from payment of cigarette taxes.
5. A resolution memorializing congress to take positive action on aid to the allies, which was passed six months before the attack on Pearl Harbor.

He served as chairman of the committee which wrote and sponsored the tax bill which was passed at the last session financing old age pensions, teacher retirement, aid to needy blind and dependent children.

Among the most important measures sponsored by Captain Taylor during his two terms was the anti-violence strike bill which passed despite vigorous opposition by labor organizers and un-American influences. He also was co-author of the House bill requiring compulsory arbitration of labor disputes in Texas.

In seeking promoton from the House to Senator representation, Taylor asks for consideration of his record of service to the people of his district and Texas. He is thirty-six years old, married and has one daughter. A native Texan and a graduate of Baylor University at Waco; he is now serving as Artillery Ammunition Officer (S-4) for the Thirty-sixth Infantry Division.

HORACE HAYES.

Kerens Woman Uses Fire Extinguisher To Save Her Home

KERENS, April 14.—(AP)—Fire of undetermined origin wrecked the kitchen of Mrs. Kate Hilliard's home at about 11 o'clock Saturday night.

Mrs. Hilliard who, is manager and night operator of the Kerens Telephone company located in her home, awakened to see flames leaping up her kitchen wall, quickly turned in the fire alarm, grabbed the fire extinguisher in the telephone office, and had put out the blaze by the time the fire department reached her residence.

Though the home and the telephone office were saved by her presence of mind, the kitchen was badly burned and the rest of the house suffered smoke damage.

Another New High In YMCA Finance Campaign Reached

Another new high in the annual YMCA membership and finance campaign was set this year when 62 per cent of all pledges were cash donations, Pat H Ramsey, general secretary, announced today.

Reports indicate, he said, that additional members will be secured in the next few weeks, including nearly all employes of the Oil City Iron Works and the American Well and Prospecting Company. Special committees are in charge of this work, he added.

At Bazette

There will be an ice cream supper and cake walk at the school house Friday night, May 1, 1942. All candidates especially invited. Benefit of the 4-H Club girls.

Corsicanans Urge Sensible Practices Of Farm Credits

FORT WORTH, April 15.—(AP)—Methods of speeding up handling of farm loan applications were discussed here yesterday by executive committeemen of five North Texas Production Credit Associations and officials of the Production Credit Corporation of Houston.

"Sensible credit practices to serve farmers and stockmen during these abnormal times" were advocated by committeemen of the Corsicana, Wichita Falls, McKinney, Stanford and Stephenville production associations in one of a series of conferences to be held throughout Texas on farm credit problems.

Will Join Husband, Wounded at Pearl Harbor, This Week

Mrs. Carter Kirven, Jr., is leaving the latter part of this week for Mare Island, California, to join her husband who is confined to the Naval Hospital there. Carter Kirven, Jr., was seriously wounded at Pearl Harbor, where he saw service in the Navy, and will be confined to the hospital for some time. However, according to latest reports, he is improving, and is being allowed to walk a short time each day.

Mrs. Carter Kirven, Sr., of Dallas is in the city to visit relatives, and to bid good-bye to her daughter-in-law.

CARD OF THANKS.

We take this method of thanking each one who so willing helped in any way, and for the beautiful floral offerings, in the death of our mother, Mrs. S. H. Moore. May God bless each of you is our prayer. — Her Children and Grandchildren.

Navarro Countians Attend Rationing Meeting in Dallas

Several Navarro county officials went to Dallas Thursday to attend a regional conference with reference to the sugar rationing procedure to be carried out here within a few weeks.

Those making the trip included J. C. Watson, county school superintendent; W. A. Wright, chairman of the county rationing board, and W. H. Norwood, superintendent of the city schools.

Joe Faye Harrison, Former Corsicanan, Received High Honors

Miss Joe Faye Harrison, daughter of Mr. and Mrs. Hastings Harrison, formerly of this city, received the award for the outstanding Chi Omega of the year, when active and alumnae chapters of the Chi Omega sorority celebrated the forty-seventh anniversary of the organization at Melrose Hotel in Dallas on Thursday evening.

In the list of new officers elected the same evening, Miss Harrison was elected pledge instructor for the coming year.

Kerens Aggie Has Received Commission

KERENS, April 14.—(Spl.)—Captain Luther Joe Westbrook, of the R. O. T. C. Third Battalion, of Texas A and M. College, was at home for the week-end with his parents, Mr. and Mrs. Luther Westbrook.

Captain Westbrook has already received his commission in the Army Air Corps, and will enter immediately after his graduation from A. and M., in June.

Promote...

CAPTAIN JAMES E. "JIM"

TAYLOR

OF NAVARRO COUNTY

SENATOR

To The People of The Sixth District—

FOUR years ago the people of Navarro County selected me to represent them in the House of Representatives of the Texas Legislature. For two terms it has been my earnest desire to serve them honestly and efficiently in that capacity. They are my only witnesses.

IT has been my lot to have an active part in much constructive legislation during these four years. Many serious problems facing Texas when I entered the Legislature have been solved. My part in accomplishing this is well known to most of you.

BELIEVING that the people of the Sixth Senatorial District want to promote a public servant when he deserves promotion because of faithful service, I had planned to actively campaign for State Senator this year.

HOWEVER, an emergency faced this country on November 25, 1940, and President Roosevelt called the Texas National Guard for one year's training. I accepted my responsibility as a citizen of Texas and this Nation at that time and entered the military service. Today this "National Emergency" has become more serious. We are at WAR, and every American must continue to prepare himself to defend this country.

THIS Makes it impossible for me to campaign with you personally and I submit herewith my candidacy, and must depend on those among you who feel that my promotion to this high office has been justly earned who will appoint yourselves a campaign Committee-of-One to Elect Captain JAMES E. TAYLOR of Kerens your STATE SENATOR.

FOR your efforts in my behalf I can only promise to continue to serve diligently and faithfully and to the utmost of my ability.

Respectfully

Capt. James E. Taylor

WHAT TO TAKE

Knowing "by heart" what to do and what to take if a single house is burned or a neighborhood forced to evacuate may save much serious trouble. The Poles did not know what to do—and they clogged the roads, delaying their military forces. They carried the wrong things. The same thing happened in France and Belgium. It must not happen here.

In San Francisco in 1906 there was an earthquake—an act of nature, not of war. People left their tottering and burning homes clutching a birdcage in one hand, a bunch of great-grandmother's table silver in the other. The bird could usually have taken better care of itself. Blankets, canned milk and fresh underwear would have been worth more than heirlooms in those days.

One useful thing is the knapsack which carries belongings on the shoulders, leaving the hands free. The Red Cross tells how to make it. It should be packed ready for use, or the list of needfuls should be pinned to it, so that it can be packed without delay. Along with the bathrobe, sox, underwear, canned milk and chocolate recommended, it would be well to pack a rubber sheet if the household owns one. Laid on damp earth under blankets it keeps them dry. Spread on sticks it can keep off a shower.

There may be no great enemy bombing of this continent. But fire is bad. Fire drill and evacuation practice are good. They eliminate fear and confusions in time of trouble.

POPCORN PACKING.

It may seem frivolous to deal on the editorial page with such matters as chocolate cake and popcorn. But with all those soldier boys clamoring for home-made cake, and all those mothers, sisters and sweethearts, not to mention aunts and grandmas, making cake and trying to think up some way to get it to Camp Selby, Fort Knox or Randolph Field—not to mention Reikjavik or Melbourne—without losing its frosting and getting dented and funny-looking on the way, the discovery of Mrs. W. R. Robinson of Greybull, Wyo., becomes important.

Mrs. Robinson tried everything she could think of and everything her neighbors suggested, in vain. Young Robinson liked his cake anyhow, but his mother still suffered the nagging unrest of the unsolved problem. Finally it come to her. Just like that! Popcorn! It works! She sets the cake down in the box on its cardboard plate, and she pours white, fluffy popcorn all over and around. It fills the corners and evens up the curves. It's strong and firm. It's so light that her parcels post costs are less. And do the boys eat it up? They do.

MORE DRIVING CARE

Seeing cars spin by on the main highways, it may seem that motorists are as yet paying no attention to threats of gas and rubber shortages. But they are. In some states statistics show a reduction of 15 per cent in gasoline sales. This means more than 15 per cent in passenger-car gas sales, because the trucks are still going at more than the usual mileage. There is also a reduction of 18 per cent in arrests for speeding. A sharp drop in parking meter receipts is reported from a town in Texas.

The managing director of a large automobile club which gives road service says: "It used to be that a man with a flat tire would risk ruining it by driving to the nearest garage. Now he stops on the spot and calls for help." People are budgeting their miles, he adds. They resolve to cut their mileage by a third, given attention to it and find they have reduced even more than that.

So it is apparent that the idea of saving rubber and gas is taking hold. Similar reports are heard in all regions. Americans really want to win this war.

OVER-REACHING.

The Japanese have done what many shrewd observers expected of them. They have overextended themselves. They are in the position of the greedy little boy who stuck his fist into the sugar bowl and grabbed so many lumps that he could not get his hand out. Or they have cast their net so far, and taken so many fish, that the net is bound to break. Or in plain English, they have bitten off more than they can chew.

This is a childish thing to do. And therefore a natural thing. For the Japanese war lords, with all their shrewdness, seem but half-civilized, lacking the vision and scope of western statesmen.

Soon, we trust, will begin the process of cutting the strands of that net of conquest one by one. It will not be a pleasant job, but it can be done.

OUR WARNING.

In our pity for the plight of France, which has often come close to contempt, it is well to remember the debt we owe her—not only for what France has been in her brave past, but for the warning she has given us in the present.

A statement made in that pitiful court trial at Riom, where critics have been poking through the ashes of fallen France, tells how the French army had only 150 heavy tanks when the war began, and only fuel for five hours' operation when they were sent into action against the powerful German tank corps.

The tragedy of unpreparedness first woke us up to the hard realities and enabled us to start our own defense. Next came the terrific shock of Pearl Harbor. From those two catastrophies and warnings, we gathered the strength to save ourselves at the last hour.

Kipling never imagined what a storm would rage around that Burma Girl a-settin' by the old Moulmein pagoda.

Sure, we're a modest people. We're starting to brag now about how Americans don't brag any more.

God's in his heaven, and he'll do his part if we do ours.

It's natural that the Russkis should win on skis.

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

FOR GOD AND COUNTRY.

For God and Country! Once again
We take the field as fighting men,
For God and Country, and the right
In peaceful sleep to spend the night;
To kneel in worship and to pray
And holy keep the Sabbath day,
For God and Country, and till fall
The charm of countless gardens small.

For God and Country! Tyrants pause!
Man never served a nobler cause.
For God and Country, song and mirth
And all the gentle things of earth
Our schools, our books, our playgrounds fair,
The suppers happy wives prepare,
Our rights, which freedom guarantees,
There hides no lust for power in these.

For God and Country! Shore to shore
We fight our foes and nothing more!
On land, on ocean, and the sky
Our sons for freedom dare to die
That those who follow them hsell be
From domination wholly free;
For God and Country, to the last
Our foes shall find us standing wast.

CAN SPRING BE FAR BEHIND?

CORSICANA SENIOR HIGH SCHOOL TO BE REPRESENTED WACO

A large number of students will represent the Corsicana senior high school at the annual Texas Interscholastic League meet to be held at Waco next Friday and Saturday.

M. S. Cook, supervisor of tennis and director of the one-act plays, announced a complete list of his entries Tuesday. Final entries in other divisions will be made Wednesday and announced by Principal O. P. Douglas.

Members of the first cast of the one-act play, which was selected at a try-out recently, include the following:

Barbara Byrd, Jay Marvin Wolens, June Panton, Roy Jordan, Byron Cock, and Bobby Waddell. Alternates include Betty Jo Benton, Sammie Werner, Carolyn Bule, Harold Trone, Ellen Purifoy, and Billy Pugh. Stage managers are Billy June Etheridge and G'Nelle McWilliams.

In the tennis division, representatives will be chosen from the following members of the high school tennis class. Girls—Jo Peacock, Barbara Robinson, Paulene Peacock, and Maydell Weatherby. Boys—Joe Burnett, John Dempsey, Paul Spear, Tommie Waters, Billy Bob Tinkle, and Billy Whiteside.

Tennis preliminaries will be played Friday with the finals slated for Saturday.

Navarro Farmers Are Cooperating In Conservation

Farmers co-operating with the Navarro-Hill soil conservation district are utilizing legume crops in the campaign to grow more and better food-for-freedom crops in 1942, it has been pointed out, and at the same time are helping their lands. This procedure causes less erosion damage to their fields in addition to adding valuable nitrogen to the soil, leaving nitrates otherwise needed for fertilizers to be used in the manufacture of munitions of war.

Winter legumes plowed under in early spring as green manure, protects the soil from washing and increases the productivity of the land. Among products used the past winter are Austrian winter peas, hairy vetch, while summer legumes stressed are cowpeas, velvet beans and soybeans.

Frost Youth Now Located Australia

FROST, April 15.—Ed Hammonds has received a telegram from his son, B. R. Hammonds, saying that he has landed safely in Australia with American Army reinforcements. He is agraduate of Blooming Grove High School, attended Hillsboro Junior College one year before interrupting his education to join the United States army in October, 1940.

ANNUAL BOY SCOUT FIRST AID CONTEST ON SATURDAY NIGHT

Six Boy Scout first aid teams will compete Saturday night at the annual Boy Scout first aid contest in the YMCA gymnasium. Dr. S. H. Burnett, chairman of the health and safety committee, will direct the meet which will open at 8 p. m. He will be assisted by several first aid instructors who will serve as judges.

The troops who have entered the meet are Troop 239 of Frost, Troop 243 and Ship 243 of the First Methodist church; Troop 244 of the First Methodist church, Troop 255 of the North Corsicana Methodist church and Troop 285 of the State Home. Other troops are expected to enter before the end of the week.

About 50 Scouts who are being trained to serve as messengers for the civil defense program will meet Friday night at St. John's Episcopal Parish Hall for assignment to their post and to continue their training.

Venetian Blinds Installed.

The appearance of the Thirteenth Judicial District Court room at the courthouse was materially changed Tuesday with the installation of venetian blinds at the windows on the east and west sides of the room, replacing the old styled shades.

Sun Want Ads Bring Results.

MARCH WAS MONTH OF DAMAGE TEXAS RANGE CONDITIONS

AUSTIN, April 14.—(AP)—Cool, dry, windy weather during March delayed new range growth in Texas, the U. S. Department of Agriculture reported today.

The reported condition of cattle ranges continued to decline during March, and was reported at 79 per cent of normal April 1. Range forage on cattle ranges usually responds to more favorable growing conditions and record an improvement in condition of about 4 points during March.

Sheep ranges declined 4 points during March and were reported at 73 per cent of normal on April 1. On the average sheep range growth improves about 4 points during March. Sheep ranges supplied very little forage during the past month, and heavy supplemental feeding was necessary. The abundant feed supplies of last fall are nearing depletion in all parts of the state except in the plains.

Greenbug damage to oats has been heavy with complete amandonment of many fields reported. Cattle have been taken off most of the wheat fields in the plains, which are to be saved for grain, but some volunteer fields were still being grazed. Subsoil moisture was adequate over the entire state, and surface moisture was adequate in the high and low plains and eastern and coastal counties.

Prior to the almost general rain of April 5 to 8 surface moisture was practically depleted. With surface moisture supplies replenished since April 1, range growth should respond rapidly and show considerable improvement during April, except in the extreme southern counties where moisture is still needed.

Cattle In Good Flesh.

Cattle are going into the spring in strong condition and in most cases in good flesh, although scattering reports indicate some are thin. The calf crop is very good. Feed and roughage supplies have been plentiful. But with the top soil dry during March and range growth backward feed supplies were well used up, except in the plains area. To date reported marketings are about normal but with very little contracting of the calf crop. Both the buyers and ranchers are reluctant to put a price on fall delivery calves. February market movement of cattle and calves was 110,000 head compared with 105,000 head a year earlier.

Condition of Texas sheep declined another point during March and is reported at 78 per cent of normal on April 1, which is the lowest reported condition since March, 1940. The 1932-41 average indicates that condition of sheep improves about 3 points during March.

Goat shearing is practically completed and a major portion of the clip was reported already sold. Sheep shearing has not started as yet, except in a few scattered mutton flocks, however, a larger portion of the 1942 clip has already been contracted.

The early lamb crop got off to a very bad start, milk flow of ewes was low and very little green feed was available. Death losses have been high. Prospects for the late lamb crop were none too promising. Present indications point to a later than usual movement of lambs. February 1942 market movement of sheep was 91,000 head compared with 55,000 head a year earlier.

REMOVAL OF RAILS FROM CITY STREETS TO BE COMPLETED

Inauguration of the project to complete removal of street car rails in the city of Corsicana was authorized Wednesday, according to an announcement from the office of Stearns S. Tucker, deputy administratoor, WPA state headquarters at San Antonio.

It could not be learned before noon whether the actual work order had been received here but it was indicated the work would get under way as soon as possible. The project calls for removal of about 135 tons of steel rails and repairing the streets with WPA funds of $15,804, local funds of $2,655, and 75 workers involved.

Literary, Track And Field Events Be Held At Baylor University

Literary, track and field events of this district interscholastic league will be held at Baylor University, Waco, Saturday, M. E. Taylor, Emhouse superintendent and director-general of the county, pointed out Tuesday morning while in Corsicana. Tennis competititon will be held at Baylor Friday.

If weather conditions permit, the playground ball tournament of the county will be held Saturday at Emhouse, Director Taylor said.

Thompson Endorses Loan Plan.

AUSTIN, April 14.—(AP)—Chairman Ernest O. Thompson of the railroad commission heartily endorsed Senator Tom Connally's proposal of federal loans to small operators facing bankruptcy due to well shutdowns ordered by the commission.

Terming the proposal feasible and practical, Thompson yesterday pointed out the government made loans on cotton in storage, corn, wheat and other agricultural products.

W. P. BROWN NAMED PRESIDENT ROTARY CLUB ON WEDNESDAY

W. P. Brown was elected president of the Corsicana Rotary Club at an executive session of the board of directors of the organization Wednesday afternoon. He succeeded Sidney K. Brietz who subsequently becomes vice president.

John Corley was re-elected secretary. The board meeting was held following the election of eight new club directors. They were O. L. Albritton, W. P. Brown, Ralph Brown, Joe E. Butler, John C. Calhoun, John Corley, Wayne R. Howell and Beauford H. Jester.

WOMEN

(Continued From Page One)

Woman's Society of Christian Service must serve these times by walking hand in hand with God," Mrs. Bragg concluded.

Mrs. Bragg has served in Methodist work for many years. Before unification she was for fifteen years a promotional secretary for the foreign missionary work of the women of the former northern branch of the church. She has been active in interdenominational work and a teacher in mission institutes. Mrs. Bragg will be speaker at the Thursday night conference session and a cordial invitation has been extended to all citizens of Corsicana to hear her address.

Reports Are Heard.

Preceding Mrs. Bragg's address conference committee secretaries made reports Thursday morning. Mrs. J. V. Baird, secretary of Christian Social Relations and Local Church Activities; Mrs. M. H. Hopkins, Secretary of Supplies; Mrs. J. K. Wilkes, Children's Secretary; Mrs. A. M. Tibbs, Secretary of Young Women and Girls' Work; and Miss Ernal Smith, Secretary of College Students' work gave brief discussions. Mrs. R. M. Orgain, conference treasurer, was in charge of the pledge service and honorary membership campaign, using as her topic, "World Wide Sharing." The morning session was opened with a meditation directed by the Rev. W. V. Bane.

Wednesday night's program was dedicated to the Wesleyan Service Guilds of the conference with Mrs. R. S. Hubbs, secretary of the Guilds, presiding. Mrs. C. A. Boaz led delegates and visitors in a group of missionary hymns to open the service and Miss Laura Edwards led in prayer. An impressive pageant, "The Flag, The Torch and The Cross" was presented by members of the Ennis Wesleyan Service Guild. Mrs. Hubbs issued a definite challenge to members of the Wesleyan Service Guilds to strive for personal spiritual enrichment that they might follow the words of Christ, "Ye Are the Light of the World."

Talk On Brazil.

Miss Mary Sue Brown of Brazil was speaker for the evening. "During the past few months our thoughts and our minds have turned toward Latin America and particularly toward Brazil," Miss Brown told her interested group of listeners. The importance of Brazil to the United States cannot be stressed too much, Miss Brown continued, since it is a neighbor of our nation and a large neighbor, with 40,000,000 inhabitants. She struck an encouraging note when she said that friendship toward the United States is steadily growing in Brazil. Speaking of the Methodist work being done in the Latin American country the missionary told of the great educational projects which are underway there. She spoke of the five Methodist schools that have progressed rapidly and told the women that the doors are wide open in Brazil, that the Brazilians recognize the contribution the schools have made to their country. In addition to the educational work done by the missionaries, social service work and literature play a large part in their services. And, most important is their work with the Methodist Churches, the speaker said. She outlined the work done by the Brazilian Methodists and, with her dynamic approach and zeal in her subject, gave women of the Central Texas Conference a new inspiration for missionary ideals.

The First Methodist Church Choir gave an anthem, "Open Wide Thy Heart" and Mrs. Eldred McKinnon, violinist, played Op 9—No. 2 Chopin. Mrs. O. W. Holmes was organist.

President's Message.

Highlight of the Wednesday afternoon session was the annual message of the Conference President, Mrs. Gid J. Bryan of Waco. Mrs. Bryan told her audience that Methodism faces a chaotic world today with a united front represented in forty-six countries of the world. "As we meet in the first annual session of the W. S. C. S. Central Texas Conference we face a crisis hour in human affairs and have an opportunity for service and sacrifice that we have never before had," the speaker challenged her listeners.

"We must redouble our efforts to make bold the supremacy of Jesus Christ. Our only path is forward. We must strive to conquer evil and lay foundations for everlasting peace by preserving our heritages. There is no darkness so dense that light cannot penetrate."

Mrs. Bryan urged her fellow workers not to avoid realities but to face them with faith and courage, looking forward and bearing their lights high in a world dark with war. Her final words challenged the women to "consecrate yourselves to building a Christian democracy and world order based on love and justice." A candle-lighting ceremony concluded her message with each division secretary lighting her candle and forming a "V" for Victory.

Vice President Reports.

Mrs. Edward Sneed, conference vice-president, gave her report, particularly stressing the importance of the World Federation during these perilious times. Mrs. A. R. Corn, Secretary of Literature and Publications, made her annual report.

Miss Maggie Rogers, missionary from China, inspired the women by telling of the wonderful work being done by Chinese women in the midst of war, poverty and illness. She brought encouragement to the conference by emphasizing that the Christians in China are standing firm and are doing a great work. A remembrance service concluded the session.

Mrs. B. B. Wedemeyer, Conference Secretary, presided at the anniversary luncheon honoring district secretaries held in the educational building Wednesday noon. The secretaries were seated at the speaker's table, each place being marked with a hand-painted place card of a birthday cake and one candle. Secretaries attending were Mmes. W. A. Pace, M. H. Hagaman, R. W. Caldwell, J. K. Stroud, Lacy W. Goostree, Byron Leaird, Jr., Joe Cooper, Charles E. Culbertson, John H. Smith and Miss Mary Moody.

Birthday Cake Lighted.

Roses decorated the luncheon table and Mrs. Joel Trimble, vocalist, further carried out the setting in the singing of "Only 9 Rose." She was accompanied by Mrs. O. W. Holmes. The birthday cake was lighted and an impressive ceremony held.

Mrs. Wedemeyer, in her report, told secretaries and others gathered at the luncheon "we are definitely charged with the responsibility of enlisting all Methodist women. Our local churches are the very bone and sinew of the Christian movement around the world. Again and again we hear it said that these are troublesome days. They are indeed, but they are also days that call for greater courage if we are to meet the challenge which confronts Christian women. If we would be true to our wonderful heritage, we too must be strong, self-sacrificing, courageous and unfailing in our zeal. Our beginning is glorious, as you will agree after hearing these reports today, however, it is not the beginning, but the continuing that really counts now. We are calling upon you today to gird yourselves with new courage to press forward with Christ as your guiding light—to press forward giving real sacrificial service to the Woman's Society of Christian Service."

Other Reports Heard.

More reports were to be heard during the afternoon with an address on "Japan" by Miss Charlie Holland highlighting the session. Delegates will be honored from 5 until 6:30 with a tea at the home of Mrs. George T. Jester.

The Program schedule follows:

Evening:

7:30—President's Evening.

7:45—Missionary Hymns, Mrs. C. A. Boaz, leader; Scripture Reading and Prayer, the Rev. C. O. Shugart; Anthem by First Methodist Church Choir; Address: For the Living of These Days, Mrs. J. D. Bragg.

Friday.

Morning:

9:00—Meditation, the Rev. A. A. Peacock; Scarritt College, Mrs. L. P. Martin, Scarritt representative; Reports of Standing Committees, Mrs. George V. Brooks, president City Mission Board Fort Worth; Address on India, Miss Nell Neylor; Mrs. Dorothy Staten and Her Kindergarten (Negro); The Wesley Foundation, Dr. Glenn Flinn; Address on Korea, Miss Laura Edwards.

11:00—Order of Business; Invitation for the 1943 Conference; Resolutions; Consecration Service, Miss Sallie Lou MacKinnon.

Adjournment.

Naval Officer

Lieut. Commander William Grady Pogue, above, is now commanding officer of a destroyer in the Pacific area. He is the son Z. J. Pogue of Corsicana. He was appointed to the Naval Academy, Annapolis, Md., by Congressman Rufus Hardy before he graduated from Corsicana High School in 1918, and passed his examinations while still a high school student. He was born near Waxahachie.

Lieut. Commander Pogue has served on the Battleships Nevada and Wisconsin, Destroyer Tracer and Aircraft Carrier Lexington. He was stationed at the Naval Academy four years as instructor of gunnery.

His wife, the former Mary Appleby Davies of Washington, D. C., is now in Hawaii.

THE WAR TODAY

(Continued From Page One)

the laws of civilization in attacking us. At the same time, it should give the American public great courage and confidence, because it emphasizes again that when the United States once is fully armed, there is nothing on earth which can stop it.

However, the feat over the Philippines should be taken as a signal that MacArthur is ready to cut loose with a major offensive, for he isn't. Indeed, when the time comes to dump wrath on Japanese cities, the aerial blows will come from more than one direction and we shall not be depending solely on our base in Australia.

Still, I think we may expect to see a steady increase in the attack on Japanese communications between the home-land and the newly vulnerability, represents one of Japan's weaknesses and it is especially serious because of their lack of shipping for these long hauls. Every Jap steamer sunk is a nail in Nippon's coffin.

Calvert Now City Attorney Hillsboro

R. W. (Bob) Calvert, Hillsboro attorney and former Corsicanan, has been appointed by the Hillsboro city council to serve out the unexpired term of City Attorney John Abney who has reported for active duty as an officer in the army.

Calvert formerly was representative in the Texas legislature from Hill and Navarro counties and was speaker of the House.

RAIDERS

(Continued From Page One)

as a forward base on their 4,000-mile roundtrip attack. The fortress craft lost on the flight was grounded there, having an engine changed, when a Japanese bomb hit destroyed it in flames.

Advanced Base.

The advance base may figure prominently in future attacks, for the assaults of last Sunday and Monday were acclaimed here as only a sample of heavier blows still to be delivered in an effort to turn the tide of battle in the Southwest Pacific.

Indeed, Australia's prime minister, John Curtin, declared today that the Royce exploit showed that the tide of war was turning against Japan.

He added that it was but the first drive into the heart of Japanese military positions and in time would be followed by the operations of vast air fleets.

One hundred ten tons of bombs were dropped on the enemy in Cebu, Mindanao and Luzon in the two peril-fraught days in which the bomber force dominated the skies in its theaters of operation. Topping the list of successes were the sinking of four transports and hits on four others, including one probably sunk.

Significance of Raid.

The chief significance of the raid, however, lay not in the destruction achieved but in the mere fact that an opening blow had been struck despite the terrific odds of distance and Japanese air power in the islands.

In comparison with the still unfolding story of this raid, the continued offensive blows of allied airmen against Japanese bases closer to Australia—such as a pre-dawn attack today on Koepang, in Dutch Timor, and a new assault yesterday at Rabaul, New Britain—lacked in appeal to popular fancy.

It was announced officially that one hit and a near miss were scored on an enemy ship at Rabaul, the center of the enemy's preparations against Australia. At Koepang, the Royal Australian air force dropped high explosives on an airdrome, but "other details of the attack have not yet been received," a communique said.

Only One Plane Lost...

The Sunday and Monday operations in the Philippines cost the raiding force no casualties and no damage, except for loss of the B-17 fortress craft and many a hole in one of its two mates and one of the ten B-25 medium bombers.

"One man, not a member of our party, was killed in action connected with our flight," Royce said. "A fellow named Burns jumped in a fighter when he heard the Japanese and started to take off. He got off the runway but the plane burned up. It was a takeoff accident only. The Japanese had nothing to do with it."

So extraordinary was the conduct of the bomber force that the MacArthur command hadn't enough medals to go round.

In the semi-gloom of a huge hangar here, Major Gen. Rush Lincoln, commanding American airmen under Lieut. Gen. George H. Brett, the allied air commander for the Southwest Pacific, conferred distinguished service crosses on Royce, Lieut. Col. John Hubert Davies of Piedmont, Calif., and Captain Frank P. Bostrom, a native of Maine and Alumnus of the University of Maine.

Bostrom was not present for the ceremony.

Lincoln first pinned a distinguished flying cross on Royce's shirt and a few seconds later, discovered his mistake, took it back and conferred the DSC. Royce's cap was at a jaunty angle and he was smiling.

While the honors were bestowed on Davies and Bostrom at the same ceremony, they will not actually receive their medals until a new supply arrives.

Most of the passengers picked up in the Philippines were United States army and air corps officers. Among them was the Filipino ace, Capt. Jesus Villamor, who won the distinguished service cross for his exploits in flying to defend his homeland.

Among the others were the Chinese Lieut. Col. Chi Wang, who was liaison officer with the forces on Bataan, and two newspapermen, Nat Floyd of Sherman, Texas, of the Manila Bulletin and New York Times, and Frank Hewlett, Pocatello, Idaho, of the United Press.

Officers included: Col. Charles Backes, chief of the Philippines army air corps; Col. Fisher, U. S. army, who was assigned to headquarters, Philippines department; Lieut. Col. W. B. Kinnard; Captain Joseph Moore; Captain Henry Thorne; Captain Harvey Whitfield; Lieut. Wienart; Lieut Thomas Gerrity; and Lieut. Conley.

The others were enlisted men—bombardiers, navigators and noncommissioned officers — whose names have not yet been issued.

BRITISH

(Continued From Page One)

pilot kept up until his plane was almost touching water.

The night attack on the Ruhr was the second large-scale penetration of Germany in as many nights.

Four planes were announced as missing from the night attacks which also included raids on St. Nazaire, docks at LeHavre and airdromes in the low countries.

The Ruhr, site of the Krupp Works and other industries which form a backbone of the nazi war effort, caught most of 1,000 tons of bombs reported dropped on Germany last week and observers expressed belief it was well on the way toward receiving another 1,000 tons this week.

The German air force struck back with a night raid on a town in northeast England which killed at least twelve persons

"A few bombs dropped elsewhere caused neither damage nor casualties," a British communique said.

REFUGEES

(Continued From Page One)

College and Georgetown University He has worked for the Manila Bulletin, operated a brokerage on the Manila exchange and edited a mining company publication.

Floyd said his trip to Australia from the Philippine battle zone was uneventful.

"I just got in a boat and rode," he said. "And then a few weeks later I got in a plane and rode to Australia."

WE GIVE VICTORY COUPONS. Help win the war, with every 20 coupons you may exchange them here for a U. S. Defense Stamp. One given with every 25 cents spent in our shop. All permanents with the heavy foil cover, not just wax paper. While they last at one-half our $10.00 wave, $5.00. It's glamorous and easy to brush in place. $6.50 Triple Oil, $3.25; $5.00 Double Oil, $2.50; $3.50 Oil, $1.75; Either $3.00. Victory permanent $1.50 and a good $1.00 push up that all. All work guaranteed by Mrs. Zarafonitis Fortner, Glory O Beauty Shop, 602 corner 1st avenue and 14th street.

EUROPEAN WAR

(Continued From Page One)

States has nothing but scorn for collaborationists and would consider such a regime unqualified to represent the French people.

Laval himself, now France's most powerful figure, with the aged Marshal Philippe Petain only a figurehead, returned to Vichy from Paris where he was said to have conferred with Hitler's agents—Presumably receiving the feuhrer's orders for the future government of France.

He was immediately received by Petain.

In Washington, senators gloomily forecast that the French fleet—once Europe's second largest—would soon bolster axis sea power, jeopardizing Anglo-American domination of the North Atlantic supply routes to England and Russia, and also imperilling British control of the Mediterranean.

Other Developments.

Other major developments:

Russian War Front—Soviet dispatches reported that Red army shock troops who smashed through the first line of German defenses around Bryansk, 200 miles south of Boscow, had surged forward and ocupied a dozen settlements abandoned by the Nazis.

The Russians said Hitler's high command was constantly increasing reinforcements for "feeler" attacks against the Red armies, but there was still no sign of the long-heralded German spring offensive.

London military quarters said the Germans would probably not attempt to unleash a full-scale "blitz" assault on the central front until about May 15, when the weather and terrain conditions would be more favorable for mechanized attack.

Britain—London sources declared the appointment of Germany's crack Field Marshal Gen. Gerd Von Runstedt to command nazi troops in northern France indicated that Hitler was doing his ut most to strengthen defenses against a possible British-United States invasion.

Twenty Nazi Divisions.

Authorities said there were at least 20 nazi divisions—roughly 300,000 troops—massed in northern France, but declared the caliber of the troops was inferior.

Aerial warfare—RAF bombers "heavily attacked" Germany's war foundries in the Ruhr again last night, and also attacked St. Nazaire, docks at Le Havre and airdromes in the nazi-occupied low countries.

Continuing the round-the-clock offensive, RAF daylight raiders pounded the French "invasion coast" with a sweep over the Dunkerque area.

German night raiders struck back with an attack on a British armament industrial enter, identified as Sunderland, where at least 12 persons were killed and many wounded.

The Germans acknowledged "some" deaths and injuries from RAF bombs dropped over Western Germany during the night.

INTERNATIONAL

(Continued From Page One)

numbered, battle-worn British troops again had fallen back to a line south of Minhla, fifteen miles below the Minbu gateway to Central Burma's rich oil fields.

It seemed clear now that Japan was striking hard for a quick knockout of British Chinese defenders of Burma.

A Chinese military spokesman said the Japanese were pouring five and a half fresh divisions—perhaps 80,000 troops—into the campaign and that two new divisions were already landing at Rangoon, where RAF fliers had sighted forty transports.

The spokesman said the position of Chinese forces battling desperately against the Japanese below Mandalay had been made still more difficult by the British retreat on the Irrawaddy River sector to the west, dangerously exposing the Chinese right flank.

A Chinese communique said the new Japanese drive into Burma from Thailand had now assumed the proportions of a major offensive, with the invaders apparently seeking to cut the Mandalay-Lashio railroad 200 miles north of the main Chinese forces commanded by Lieut. Gen. Joseph W. Stillwell, U. S. A.

J. T. KETCHUM DIED THURSDAY MORNING; BURIAL ON FRIDAY

J. T. Ketchum, aged 29 years, died at the family residence, 703 West Thirteenth Avenue, early Thursday morning following an illness of several months.

Surviving are his wife, Mrs. Pearline Ketchum; a son, Joe Arnold Ketchum, and parents, Mr. and Mrs. J. B. Ketchum, all of Corsicana.

Funeral services will be held from the Sutherland-McCammon Chapel Friday afternoon at 3 o'clock. Burial will be in Oakwood cemetery.

ARMED MIGHT

(Continued From Page One)

other nations have been obscured, but the most recent official and unofficial estimates based on 15,000 men per division, give this picture:

Great Britain: From 3,000,000 to 3,500,000 men under arms.

Russian Armies.

Russia: At the time Germany attacked Russia, the latter probably had about 232 divisions and an army of around 5,000,000 men. New troops have been trained, but casualties also have been heavy.

China: At least 2,000,000, possibly as many as 6,000,000 men under arms.

Germany: From 6,000,000 to 8,000,000 men in the army, with about 300 divisions. In addition, Germany has called, to a greater or lesser degree, on the armed strength of satellite central European nations—Hungary's 200,000 to 400,000 men, Finland's 250,000 men, Bulgaria's strength roughly the same as Hungary's, and Rumania's army of more than 800,000.

Japan: Probably about 3,000,000 in the army, but military observers have said that Japan lacked the capacity to provide complete equipment for more than 66 divisions.

Italy: At one time probably 1,500,000 men.

PHILIPPINES

(Continued From Page One)

almost constant relatively slight, and the morale of the troops is unimpared."

The fortress island also was shelled intermittently yesterday by enemy batteries on the north and south shores of Manila Bay.

Since the Japanese invasion started, Corregidor has had 206 air raid alarms, the communique said.

Raids were actually more numerous, since on some occasions when an alarm continued for a half day four or five separate attacks took place.

WINNERS IN DAIRY AND BEEF CATTLE JUDGING ANNOUNCED

Winners in the dairy and beef cattle judging contests sponsored by the Corsicana Future Farmers of America Chapter were announced at the regular meeting of the group Wednesday night. Twenty-one members participated in the events.

Billy Shields was announced as the winner in dairy judging and Jasper Deming in beef cattle, and each will be awarded fifty baby chicks by the chapter according to the announcement by Eugene Beale.

The chapter was also informed that Bernard Crowe and Milton Loftis would continue with the swine improvement program, with one to reecive a registered Poland China gilt and the other a boar. The animals were returned to the chapter by Charles Henry Harrison who carried on the work last year. The board will be available for service to any registered Poland China sow owned by a chapter member. A gilt will be returned to the chapter from the first litter of the gilt awarded this year.

Robert Joyner presided at the meeting and social customs were the main topic of the evening.

FRENCH

(Continued From Page One)

riers, the Painleve and Joffre;

Four heavy cruisers;

Eight light cruisers built and three building;

52 destroyers built, and 20 building (five others under construction are reported to have been taken over by Germans many months ago);

59 submarines built and 22 building.

Also under nominal Vichy control are the aircraft carrier Bearn and the light cruisers Jeanne D'Arc and Emile Bertin, at the Martinique and Guadeloupe. It would be the job of the United States navy to see that those vessels did not leave the Caribbean Islands, and the chances of their passing into axis hands are remote.

A portion of the former French fleet is now in Alexadria, demilitarized under an agreement of July, 1940. The British could seize these vessels if the Germans took the French fleet, but it would take months to put their armament back in place and restore them to fighting condition.

APPLICATIONS OF CANDIDATES MUST BE ON FILE SOON

OFFICE SEEKERS REQUIRED TAKE OATH DEFEND UNITED STATES

Many candidates seeking places on the democratic ticket in the approaching primaries have not filed their formal applications or executed and filed the required oath necessary this year, it was revealed at the county clerk's office Wednesday afternoon.

Blanks for filing for places on the democratic ticket and also the oath required this year under recent legislation are available at the clerk's office. The oath is that the candidate believes in the American form of government and if elected will defend the government of Texas and the United States.

N. S. Crawford, county democratic chairman, has supplies at the clerk's office.

The deadline for filing for state and district offices is June 1 and for county and precinct offices it is June 14.

Many candidates making active campaigns and running announcemets in ewspapers have not filed the required papers.

Those who had filed their applications for places on the ticket for the first primary election, July 25, and executed the oaths early Wednesday afternoon included.

State Senate, Sixth district—James E. Taylor, Kerens.

Representative, 58th District (Navarro county)—Pat H. Geraughty.

District clerk—E. B. Dawson.

County clerk—Mable Wilkinson.

County judge—E. D. McCormick.

Sheriff—C O. Curington and E. W. O'Daniel

Criminal District attorney—Doyle Pevehouse, Charles T. Banister and J. C. (Jerry) Roe.

Commissioner, Precinct 1—Jim Taylor.

Commissioner Precinct 2—Cecil S. Johnston and C. M. Fitzgerald.

Commissioner, Precinct 3—Fred M. Copeland and C. O. (Charlie) Slaughter.

Commissioner, Precinct 4—Drew Gillen.

Constable, Precinct 1—W. U. (Big 4)—Brown. J. P. Kelly and Fred M. Tramel.

Constable, Precinct 3—L. C. Tramel.

Constable, Precinct 6—W. G. Ivey.

Justice of the Peace, Precinct 1, Place 2—Joe E. Daniel and A. E. Foster.

Justice of the Peace, Precinct 3—T A. Crowley.

PACK LARD IN SMALL CONTAINERS TO KEEP IT PURE AND FRESH

COLLEGE STATION, April 16—(Spl.)—Many Texas farm families have large quantities of sweet, high quality lard on hand, and with a little extra work and ingenuity they can save it for use during the fall and summer.

Hot weather causes lard stored in big containers, such as five or 10 gallon vats, to become rancid, Grace I. Neely, extension service specialist in food preservation, says the solution is to pack the lard tight in small containers so full they will be air tight when sealed.

For example, lard may be stored in syrup buckets, and the friction lids may be completely sealed with parafin or sealing wax. No larger than gallon buckets are recommended, and No. 3 cans or quart jars are even better, the specialist says. Lard packed in jars should be kept in a dark place.

Since lard containers do not have to be processed in pressure cookers, it is possible to reflange tin containers for this purpose. In fact it is safer to put lard in used tin than fruits, vegetables, meats and other products which must be processed to keep well, Miss Neely says.

Families who have on hand large quantities of oil or beer cans may use these as lard containers if they are of a size which can be sealed with their home-owned equipment. Their salvage can be valuable to the family, since oil or beer cans cannot be used for preserving foods which must be processed.

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY
By VERONICA DENGEL

GIRLS IN UNIFORM.

I have been studying the girls in uniform—and admiring the jaunty appearance of most of them! They look so efficient, so alive, so alert. And we are proud of them. But occasionally I find loose ends that they should watch so carefully. Let me enumerate these, and be sure that your brisk, smart, ready - for - anything appearance is not marred by a single one of these faults.

Veronica Dengel

1. Do you keep your uniform perfectly pressed?
2. Is it immaculately clean—not a spot to mar it?
3. Are your shoes the low-heeled type—and shined daily?
4. Do you wear a service weight silk, or fine lisle hose? No sheer nylons!
5. Are you certain that your slip never, never shows?
6. Is your girdle comfortable, and still adequate for that smooth hip line you need?
7. Are you doing things to get rid of that excess weight that makes a uniform a little bit ludicrous on some women?
8. Is your hair cut in the new "feather-bob" for neatness, becomingness, and ease of care?
9. Is your blouse fresh every day?
10. Is your tie spotlessly clean?
11. Have you removed all jewelry?
12. Do you wear your cap at a jaunty, but not perilous, angle?
13. Is your make-up a mild one? —No heavy "glamour lips or lids" allowed!
14. Are your hands scrubbed—and your nails a shorter, efficient length? Certainly you won't wear too dark a polish, or permit peeled polish to remain on the nails.
15. Do you remember to put on your gloves for the street?
16. Are you getting enough rest and watching your health factors to insure a good vitality that can stand a little taxing?
17. Are you remembering to take off your uniform when you are "off-duty"—and not wearing it for restaurant or theatre or social occasions—just to show how smart you look? Remember the men like you much better in your soft frock!
18. Are you on time for your duties? Do you do them cheerfully? Are you careful to avoid being or looking bored at the necessary meetings?
19. Do you have fresh make-up available in a compact little kit that will not bulge your pocket?
20. And are you remembering to walk proudly, head up, shoulders back and tummy in—so that you will look to be the vital, active, efficient, willing woman-in-service that you are?

Good luck to you—and the blessings of the nation!

FARMERS URGED TO SAVE HOME GROWN SEEDS OF LEGUMES

COLLEGE STATION, April 16.—(Spl.)—A shortage of seed supplies for 1942 winter cover crops seems probable, according to E. A. Miller, agronomist of the A. and M. College Extension Service. The shortage is most likely to affect vetch, Austrain winter peas and bur clover, as well as pasture grasses and legumes, possibly including lospedeza. The outlook, Miller says, should prompt farmers to harvest at least enough seed for their own plantings and, if possible, have some to relieve the shortages of their neighbors.

The goal for winter cover crop seed for the United States in the Food for Victory program is an increase of 57 per cent over 1941, and an increase of 25 per cent for hay crop seed.

Many Texas farmers have harvested sweet clover, alfalfa and cowpea seed in the past for their own plantings and for marketing, but harvesting of vetch, winter peas, bur clover and pasture grasses still is rather limited.

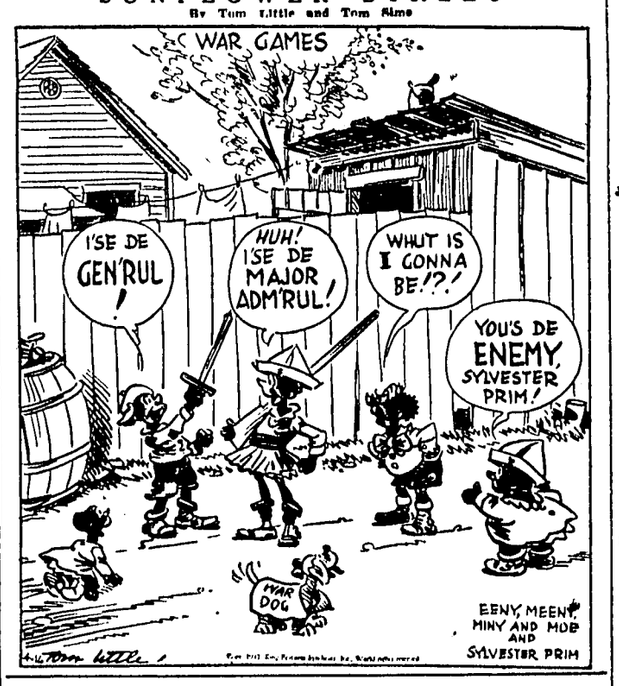

"There is great need for larger acreages of winter legumes for soil improvement," Miller says. "When more seed is grown and saved on the farms it should increase soil fertility, and produce larger yields and greater profits."

Yield of seed vary with weather conditions. From 200 to 600 pounds an acre of hairy vetch seed have been reported in east Texas. In spite of bad weather in the spring of 1941, more than 20,000 pounds of this seed was harvested on two farms in Bowie county.

Harvesting methods range from flailing out the seed on wagon sheets to the use of small combines. "The important thing is to leave a seed plot of winter legumes now and harvest the seed when sufficiently mature so it will be on hand when planting time rolls around next fall," Miller counses.

U. S. PUBLIC HEALTH SERVICE OFFERING PLACES TO DOCTORS

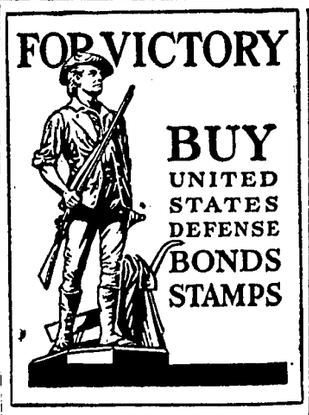

AUSTIN, April 16.—(Spl.)—Supplying the need for an immediate program of expansion in the medical personnel available for the Health and Emergency Medical Service, Dr. Geo. W. Cox, State Health Officer, today announced that the United States Public Health Service is offering reserve commissions to physicians and dentists whose services may be used to care for evacuees in the event of enemy action.

Recruitment for those reserve commissions will be largely from older age groups, from those of minor physical disability, making them ineligible for military service, and from women physicians.

Doctor Cox, who serves as State Chairman on Health and emergency Medical Service, pointed out that it is essential that staffs for operating base hospitals in safe areas be adequately planned to go into immediate effect, in event of disaster. "Caring for the sick and injured in the event of enemy action is a grave responsibility, and no one has the right to assume that we are immue from attack," Dr. Cox said. "Emergency base hospitals in safe areas to which casualties may be evacuated, together with lines of evacuation, and means of transport have been established in almost all sections of this state."

Doctor Cox said that applications for reserve commission will be serviced by his office, and pointed out that while the commission covers a reserve, inactive basis so that the physician may continue service in his community, nevertheless those commissioned will be subject to immediate service in case of artual emergency.

Named Powell Postmaster.

WASHINGTON, April 16.—The Post Office Department announced Wednesday that Miss Katherine Kenner had been appointed postmaster at Powell, Navarro county, Texas, with Mrs. Willie E. Melton as acting postmaster.

At Postmasters Convention.

A. A. Allison, Corsicana postmaster, was in Waco Thursday to attend the opening sessions of the two-day state postmasters convention.

John Carpenter Here.

John W. Carpenter of Dallas, president of the Texas Power and Light Company, was a business visitor in Corsicana Wednesday afternoon.

VEGETABLE INSECT CONTROL DECLARED NOT BE DIFFICULT

COLLEGE STATION, April 16.—(Spl.)—Follow a few simple rules and control of vegetable insects is not difficult, according to Cameron Siddall, A. and M. College Extension Service entomologist.

A duster may be obtained for a dollar up, but one may be made at home with a tin can, a stick and a piece of cheese cloth. Ask the county extension agents how it's done. Next, have ready a supply of insecticides for use at the first sign of insect injury. These are cryolite for control of bean beetles, cucumber beetles, cabbage worms and other insects which feed upon the fruit and foliage of the plants; rotenone and sulphur to control tomato fruit worm, flea beetles, plant lice and leaf hoppers; and concentrated pyrethrum dust for squash bugs, stink bugs, and harlequin cabbage bugs. Watch the garden for the first sign of injury and dust both sides of the leaves.

Apply poison bait late in the afternoon for control of cut worms, grasshoppers and adult wingless May beetle, or June bug. Poison bait also will control mole crickets which frequent sandy soils.

A bait made of cryolite, finely chopped carrots or turnips and wheat bran will control the adult vegetable weevil which attacks roots and foliage of carrots, turnips, radishes and beets, together with cabbage, mustard and other leafy vegetables. This pest prevails in 30 or 40 counties adjacent to College Station.

To control the bluish gray pill bugs, or sow bugs, which damage young tomato plants, sprinkle a mixture of two parts flour, two parts sugar and one part paris green throughout the beds. Flea beetles, also dangerous to these plants, may be controlled by dusting plants with totenone and sulphur each seven to 10 days.

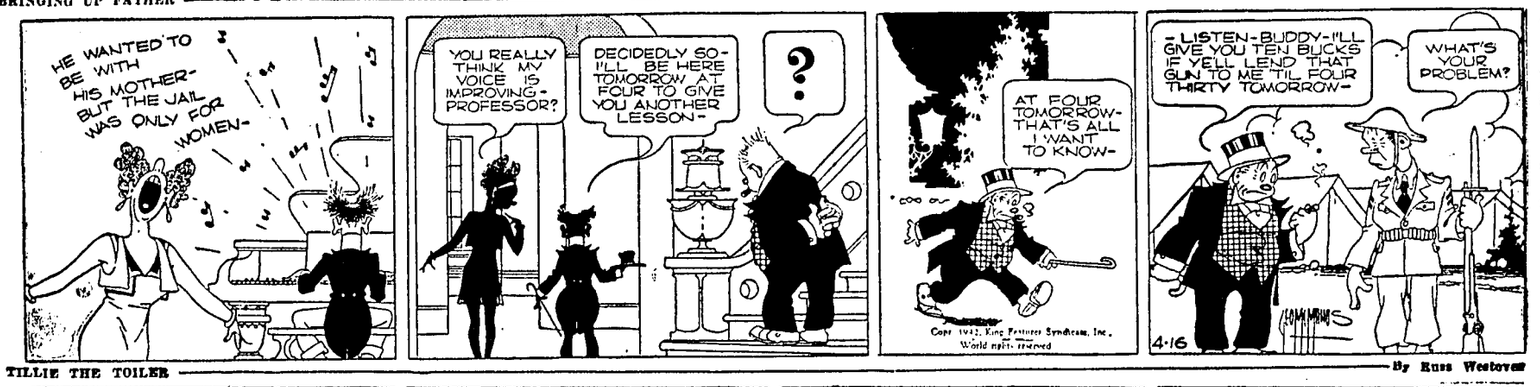

Cantaloupes, now coming up in Southern areas, may be protected from the striped cucumber beetle, which feeds beneath the first small leaves, by dusting with cube or derris powder of four per cent rotenone content, or with cryolite at ten day intervals as long as beetles are present.

Solution Tuesday's Puzzle.

CANVASSING SCHOOL TRUSTEE ELECTIONS BY COMMISSIONERS

Canvassing of school trustee elections and approval of bonds of public weighers featured the regular meeting of the commissioners court Monday. The application of Constable Homer E. Pace for the appointment of Roy Canady as deputy constable in Precinct 1 was approved. The constable stated Tuesday that the new deputy would succeed Tom Roe this week.

A resolution was passed providing that all claims to be paid on Monday sessions of the court must be in the county auditor's office not later than Saturday before the regular Monday meeting so that the auditor can audit the accounts. Claims presented on Mondays the court meets will not be paid until the next regular session of the court, it was stated.

The bond of L. C. Tramel as constable in Precinct 3 was approved.

The bond of Claud Phillips as public weigher at Blooming Grove was approved.

Clark Dickson, Dan Lawrence and George Norris were appointed as supervisors of Navarro County Levee Improvement District No. 3.

A transfer of $6,000 from the Bond Assumption Act funds to the Road and Bridge fund, to be paid back when auto registration money is secured, was authorized.

All claims were allowed except as noted on the claim docket.

J. L. Hamilton, Eureka, Precinct 1; E. H. Gray, Kerens, Precinct 2, and L. C. Boswell, Barry, trustee-at-large, were declared reelected as members of the Navarro County school board after returns were canvassed.

Following is the financial statement of county funds as presented by E. Y. Cunningham, county auditor, as of April 1, 1942:

The Van Elkins And Jack Megarittys Are Home From Florida

Mr. and Mrs. Van Elkins and Sergeant Jack Megarity and Mrs. Megarity arrived from Florida last night. Sergeant Megarity is on a ten-day furlough and at the end of this time will report back to Camp Blanding.

Van Elkins who was a sergeant and located at Camp Blanding also will remain in Corsicana on a furlough until assigned to a flying school, he having recently been transferred to the Army Air Corps. Mesdames Elkins and Megarity have been residing in Gainsville, Florida, some seventeen miles from Camp Blanding.

Long Prairie 4-H Club Members At Corsicana Rally

The following 4-H Club girls and boys from Long Prairie community attended the 4-H rally in Corsicana on April 11: Juanell May, Elizabeth Dunham, Emma Jean Dunham, Mozelle Kerley, Dorothy Dee Quinn, Brownlee Parker, Lelia Mae Henderson, Etta Jean May, Ruth Collins Bettye Collins, Dorothy Rutherford, Beth Courtney, Ellie Kimes, Joyce Hunter, Evelyn Jock, Geraldine DeMoss, Betty Sue Gilliam, Eugene Phillips, James Hunter, Douglas May, Billie Joe Henderson, Lonnie E. Lewis, Billie Ray Cook, William Earl Beaman, Joe Armstrong, James David.

Accompanying the boys and girls were Mr. and Mrs. Alton Quinn, Chat Dunham and Mrs. Zadie Kerley.

Hogs Sold Sharply Lower on Thursday

CHICAGO, April 16.—(AP)—Hogs sold at sharply lower quotations on the livestock market today in response to the Office of Price Administration's setting new temporary ceilings on wholesale pork.

In slow trading, prices were down as much at 50 cents a hundred pounds from yesterday's early peak, when top figures for the past 16 years were equaled. Today's top at 14.25 a hundred pounds compared with 14.65 in the preceding session.

Workers Class Of Kerens Methodist Sunday School Met

KERENS, April 14.—(AP)—Workers class of the First Methodist church met in business, program and social hour at the home of Mrs. T. L. Whorton on Thursday of last week, with Mrs. Ruth Henson co-hostess.

After the business session, Mrs. Russell Baxter led an interesting discussion on "The Tithe and Brotherhood," reading from Deuteronomy and Luke.

Mrs. Jack Fite and Mrs. Norma Baxter each presented talks in keeping with the subject, and the meeting closed with the fellowship period, during which the hostesses served dainty plates of sandwiches, tea and chocolate mints.

Residence Damaged By Fire Wednesday

A blaze of undetermined origin extensively damaged the residence of Miss Augusta Helm at the intersection of West Sixth Avenue and South Sixteenth street about 8:45 Wednesday morning.

The flames are believed to have started in the second story of the structure and had spread rapidly and eaten through the roof before the fire department could reach the scene. Most of the upper floor was destroyed and some of the rooms on the lower level suffered heavily from fire and water.

Field Worker From Veterans Office To Be Here on Monday

E. R. Fenton, field representative of the Veterans State Service Office, will be in Corsicana next Monday, April 20, at the American Legion Hall to assist any veterans or his dependents with any claims growing out of military service.

In a notice to local legion officials he expressed a desire to contact all veteran's widows who have not filed claim for death compensation.

Food Preservation Demonstration By Mildred HD Club

The Food Preservation Demonstration scheduled by the Mildred Home Demonstration Club for April 14 will be held at the home of Mrs. J. E. Gilmore on April 20.

Demonstrations will be on canning, drying and preserving foods. All interested are invited to attend.

Former Corsicanan Is Made Captain

FOSTER FIELD, Victoria, Texas, April 14.—(Spl.)—John H. Montfort formerly of Corsicana, Texas, now stationed at Foster Field, Victoria, Texas, was recently promoted to the rank of captain from that of first lieutenant.

Foster Field is an Army Air Corps advanced training field for pursuit pilots.

More Conservation Checks Are Received

Checks for 1941 conservation practices by Navarro county farmers approximating $100,000 have been received recently for distribution at the AAA offices.

A consignment of 303 vouchers arrived Wednesday, amounting to $25,296.74, bringing the season's total to $96,288.57.

Roane

ROANE, April 16.—(Spl.)—Mr. and Mrs. Jesse Burrow visited Mr. and Mrs. J. P. Price of Corsicana Sunday.

Miss Bertha Pendergrass of Rosebud visited Mr. and Mrs. Eugene Fluker Sunday.

Miss Sally Black of Dallas visited Mr. and Mrs. Milton Johnston Sunday.

Mr and Mrs. L. E. Knotts visited Mr. and Mrs. J. R. Knotts of Angus Sunday.

Mr. and Mrs. Herman Roberson and Mr. and Mrs. Jack Burrow and daughter, Billy Jean, visited Mr. and Mrs. J. W. Townsend of Kemp over the week end.

Mr. and Mrs. T. O. Farmor visited Mr. and Mrs. R. J. Carter of Corsicana recently.

Mr. and Mrs. J. C. Aven spent Sunday with Mr. and Mrs. W. B. Turner of Navarro.

Mrs. W. M. Gotcher has been visiting Mr. and Mrs. J. N. Gotcher the last week.

Mr. and Mrs. Bliss Meadow, Mr. and Mrs. George Meadow and Mrs. Nellie Knight of Dallas spent the day with Mr. and Mrs. Tom Holly Saturday.

Mr. and Mrs. R. O. Flowers visited in Mabank over the week end.

Mr. and Mrs. T. A. Talley, Mrs. Narbon Scoggins of Corsicana visited Mr. and Mrs. E. L. Talley Sunday.

Mr. and Mrs. Ted Peak and children of Albuquerque, N. M., have been visiting Mr. and Mrs. Marion Holley the past week.

Miss Hattie Rice and Magdalen Holley of Corsicana have been visiting Mr. and Mrs. Marvin Holley.

Mr. and Mrs. J. S. Owen and son, Jacky Glynn, and Billy Gene Owen, spent Sunday with her parents, Mr. and Mrs. J. L. Ficklin.

Frost

FROST, April 16.—(Spl.)—Mr. and Mrs. Ed Percival and Mr. and Mrs. Doyle and children of Kaufman visited Mr. Percival's sister, Mrs. M. G. Blankenship, Sunday.

Richland

RICHLAND, April 16.—(Spl.)—We have had plenty of rain the past week. Cisterns are full and there is plenty of stock water. Richland creek was pretty high a couple of days. Stock was in danger in the low lands.

Four Richland boys, Edward Hilburn, Robert York, Murl McCord and I. J. Webb left this week for the army.

Leonard Able had the misfortune last week to break his arm between the elbow and wrist, when he fell from the front porch. He is doing nicely.

Mrs. A. N. Brown and Miss Beryl Brown motored to Dallas last week, where they were guests of Mr. and Mrs. Fred Shuster. Miss Electra Brown returned home with them.

Miss Betty Lou Burton was the guest of homefolks over the week end.

Jogene Garland, Billy J. Williams, Gene Hays and several others of Richland attended the 4-H Club picnic at the YMCA Saturday.

Misses Beryl and Electra Brown attended a show in Corsicana Friday afternoon.

Reuben Griffin and Will Harbin had business in Corsicana Saturday.

Jim Lansford was a Corsicana visitor Saturday.

Robert Green and Billy McDaniel, who are in training, are here visiting homefolks.

Mr. and Mrs. Poe also have their son, who is in the army, at home with them this week.

Mrs. George McClendon has been on the sick list.

Mrs. Hill Bounds has been on the sick list.

Mr. Brown is visiting relatives in South Texas.

N. SUTTLE ROBERTS ELECTED PRESIDENT CORSICANA Y. M. C. A.

REPORT OF RESULTS RECENT FINANCIAL CAMPAIGN HEARD AT BOARD MEETING

Report on the results of the recent campaign for operating expenses and election of officers for the ensuing year featured a meeting of the board of directors of the Corsicana YMCA Wednesday morning.

Pledges totaling $5,904 were announced in connection with a statement on the final results of the finance and membership drive. This sum will be augmented by $1,800 to be contributed by the Navarro Community Foundation.

N. Suttle Roberts was elected president of the association, succeeding Beauford H. Jester. Other officers selected included Tom Eady, vice president; F. C. Paul, recording secretary, and J. H. Sullivan, treasurer. Eady succeeds Sydney Marks and Sullivan succeeds Mr. Roberts. Secretary Paul was re-elected.

The nominating committee was composed of J. M. Dyer, J. F Adams and Will Thompson.

Suitable resolutions were authorized by the board in connection with the tenure of office of Mr. Jester and Mr. Marks. Both have served five years as president and vice president, respectively.

President Roberts appointed a committee, composed of J. M Dyer, Joe E. Butler, J. F. Adams and Beauford Jester, to make a study of the membership, use of the building and the constitution of the association. It was pointed out that additional service to men in uniform had taxed facilities of the building to capacity.

A resolution was also authorized expressing the appreciation of the YMCA to the Navarro Community Foundation for the large campaign gift.

Kerens Youth Inducted.

KERENS, April 11.—(Spl.)—Among the Kerens boys who left Thursday for induction in the U. S. Army were Keel Dixon, Myron Kyser, Coy Phillips, Homer Bobbitt, Fay Sheppard and E. Purifoy.

Army Officer And Family Visit Kerens

KERENS, April 14.—(Spl.)—Captain and Mrs. J. E. Wells, and children, Linda and James, were guests last week of Mr. and Mrs. W. S. Price, and Mrs. Sue Hemphill.

They were en route from Fort Blanding, Fla., to Fort Sill, Okla., where they will be for a ten-day period, after which Captain Wells will report at George P. Meade camp in Maryland, where he will finish advanced instruction for further military assignment.

CIVILIAN DEFENSE ORGANIZATION WILL HAVE SPECIAL DRILL

THURSDAY EVENING, APRIL 23, DATE SET BY CHIEF W. E. M'KINNEY

A special drill session for the Navarro County Civilian Defense organization will be held on the evening of Thursday, April 23, according to an announcement by Chief W. E. McKinney, and all branches are expected to participate including the medical units, firemen, auxiliary police, canteen units, as well as all regular air raid wardens.

The defense chief said the regular civilian populace would not be involved in the practice which would be held to determine the speed with which the entire organization could be given the necessary warnings and reach their established posts. The drill will complete the preliminary training for the organization.

A special program for civilian defense workers was also announced for Wednesday night, April 29, at the Corsicana Senior High School auditorium when a special sound film of an actual air raid and the operations of workers under fire will be presented through the co-operation of Ralph R. Brown and the Southwestern Bell Telephone Company. Attendance will be limited to the Civilian Defense setup, according to Mr. McKinney, because seating facilities were not sufficient to permit throwing the meeting open to the public.

Lieut. C. A. Cantrell and Dal Loe of the Dallas Police Department were guest lecturers Tuesday night before the special class of auxiliary policemen at the courthouse. The class was given instruction in jiu jitsu and rough-and-tumble handling of opponents, and also in vital polts to be observed in the investigation of sabotage, methods of counter-espionage, and traffic control. Importance of traffic work as stressed because of the huge increase in the amount of military vehicles, and also because of the decrease in volume of pleasure and a corresponding gain in the amount of commercial travel over state highways.

Head of Blooming Grove Schools Has Gone Into the Navy

BLOOMING GROVE, April 15.—(Special).—W. A. Sloan, superintendent of the Blooming Grove schools for the past three years, left Tuesday for Racine, Wis., on receipt of orders from District Naval Headquarters at New Orleans. After some four months of intensive training he is expected to be graduated as an ensign.

He had made an enviable record as head of the school system and and leaves it at a high level of efficiency.

CHAMBERS CREEK AND TRINITY RIVER ARE STILL RISING

RICHLAND CREEK, HOWEVER IS REPORTED RECEDING AFTER LATEST RAIN

Two of the three major streams of Navarro County Wednesday morning were still rising while the other was receding, according to reports here.

Richland Creek was receding at the Ward Bridge crossing on Highway 31 west of Corsicana.

Chambers Creek was rising at the Highway 31 crossing several miles east of Corsicana and was still over the lowlands and rising at the Highway 75 crossing between Corsicana and Rice.

Trinity River, the eastern boundary of Navarro County, was extremely high and still rising. The crest of the floodwaters is not expected at Trinidad and Highway 287 crossing in Freestone County until Thursday or Friday.

The Trinity was all over the bottoms and still rising. State Highway maintenance crews reported late Tuesday afternoon that the floodwaters of the Trinity was over 2.4 miles of Highway 287 in the bottoms between Corsicana and Palestine and was increasing. No traffic will be able to cross this sector for some time.

The Trinity is reported to have fallen some two feet at Dallas, and if additional precipitation is not received on the headwaters of that stream and its North Texas tributaries, it is expected to begin receding from the lowlands in this section by the latter part of the week.

Ample warning to stockmen and others in the lowlands was received last week to move stock from the affected areas and little loss is anticipated.

FORMER CORSICANA COUPLE BURIED IN MEXIA WEDNESDAY

Funeral services were held a Mineola and Mexia Wednesday afternoon for Mr. and Mrs. A. E. McReynolds who were instantly killed Monday night near their home in Wood county. The automobile in which the couple was riding was struck by a fast train that carried the victims and car for a half mile. Burial was at Mexia.

Mr. McReynolds was a candidate for Wood county commissioner, and formerly resided in the Coolidge sector near Mexia. The family resided in Corsicana during the oil boom in the early 1920s.

Surviving are two sons, Lieut. Jack McReynolds, Miami, Fla., and Guy McReynolds, U. S. army; two daughters, Miss Grace McReynolds, nurse, Dallas, and Mrs. W. B. Speer, Van, and other relatives.

J. H. Farmer Ill In Waco.

J. H. Farmer, prominent resident of Dawson, is reported seriously ill in Hillcrest Hospital, Waco, following an operation. Mr. Farmer is well known over the county, having served as commissioner several years ago.
